Article 2.2
Scope

Unless otherwise provided in this Agreement, this Chapter shall apply to trade in goods of a Party.

Article 2.3
Elimination or Reduction of Customs Duties

1. Each Party shall progressively eliminate or reduce its customs duties on originating goods in accordance with its Schedule to Annex 2A (Schedules of Tariff Commitments).

2. On request of a Party, the Parties may consult to consider accelerating or broadening the scope of the elimination or reduction of customs duties set out in their Schedules to Annex 2A (Schedules of Tariff Commitments). An agreement by the Parties to accelerate the elimination or reduction of a customs duty on a good, or to include a good in Annex 2A (Schedules of Tariff Commitments), shall supersede any duty rate or staging category determined in accordance with their Schedules to Annex 2A (Schedules of Tariff Commitments) for that good when approved by each Party in accordance with its applicable domestic requirements, including internal legal procedures.

3. A Party may at any time unilaterally accelerate or broaden the scope of the elimination or reduction of customs duties set out in its Schedule to Annex 2A (Schedules of Tariff Commitments) on originating goods of the other Party. The Party shall publish as early as practicable before the new rate of customs duty takes effect.

4. If the most-favoured-nation rate of customs duty applied by a Party on a particular good is lower than the rate of customs duty provided for in its Schedule to Annex 2A (Schedules of Tariff Commitments), an importer may claim the most-favoured-nation customs duty and the Party shall apply the lower rate to the originating good of the other Party.

Article 2.4
National Treatment

Each Party shall accord national treatment to the goods of the other Party in accordance with Article III of GATT 1994, and to this end Article III of GATT 1994 is incorporated into and made part of this Agreement, *mutatis mutandis*.

Article 2.5
Administrative Fees and Formalities

1. Each Party shall ensure, in accordance with Article VIII:1 of GATT 1994, that all fees and charges of whatever character (other than customs duties, charges equivalent to an internal tax or other internal charges applied consistently with Article III:2 of GATT 1994, anti-dumping and countervailing duties and safeguard measures) imposed on or in connection with importation or exportation are limited in amount to the approximate cost of services rendered and do not represent an indirect protection to domestic goods or a taxation of imports or exports for fiscal purposes.

2. Neither Party shall require consular transactions, including any related fees and charges, in connection with the importation of any good of the other Party.

3. Each Party shall promptly make publicly available on the internet all fees and charges it imposes in connection with importation or exportation including any updates or changes to those fees and charges. Fees and charges shall not be applied until information on them, including the responsible authority, and when and how payment is to be made, has been published, to the extent possible, in the English language.

Article 2.6
Customs Valuation

2. Pursuant to paragraph 1, each Party shall ensure that the transposition of its tariff commitments, undertaken in order to implement Annex 2A (Schedules of Tariff Commitments) in the nomenclature of the revised HS following periodic amendments to HS, is carried out without impairing or diminishing the tariff commitments set out in its Schedule to Annex 2A (Schedules of Tariff Commitments).

Article 2.8
Import and Export Restrictions

Unless otherwise provided in this Agreement, neither Party shall adopt or maintain any prohibition or restriction on the importation of any good of the other Party or on the exportation or sale for export of any good destined for the territory of the other Party, except in accordance with Article XI of GATT 1994, and to this end Article XI of GATT 1994 is incorporated into and made part of this Agreement, *mutatis mutandis*.

Article 2.9
Import Licensing

1. A Party shall only adopt or maintain import licensing procedures which are consistent with the Import Licensing Agreement, and to this end Articles 1 through 3 of the Import Licensing Agreement are incorporated into and made part of this Agreement, *mutatis mutandis*.

2. A Party shall publish on an official government website any new or modified import licensing procedure, including any information that it is required to publish under Article 1.4(a) of the Import Licensing Agreement. To the extent practicable, the Party shall do so at least 21 days before the new procedure or modification takes effect.

3. A Party shall be deemed to be in compliance with paragraph 2 with respect to a new or modified import licensing procedure if it notifies that procedure, including the information specified in Article 5(2) of the Import Licensing Agreement, to the WTO Committee on Import Licensing provided for in Article 4 of the Import Licensing Agreement.

4. At the request of a Party, the other Party shall provide the information specified in Article 5(2) of the Import Licensing Agreement, with regard to any import licensing procedure that it adopts or maintains or changes to an existing licensing procedure.

Article 2.10
Application of Non-Tariff Measures

1. Neither Party shall adopt or maintain any non-tariff measure on the importation of any good of the other Party or on the exportation of any good destined for the territory of the other Party, except in accordance with its WTO rights and obligations or in accordance with this Agreement.

2. Each Party shall ensure the transparency of its non-tariff measures permitted in paragraph 1 and shall ensure that any such measures are not prepared, adopted or applied with the view to, or with the effect of, creating unnecessary obstacles to trade between the Parties. Any new measure or modification to an existing measure shall be published as soon as practicable.

Article 2.11
Temporary Admission

1. Each Party shall allow, in accordance with its laws and regulations, goods regardless of their origin, including their means of transport, to be brought into its territory conditionally relieved from payment of customs duties if such goods:

   (a) are intended for re-exportation within a specific period without having undergone any change except normal depreciation and wastage, due to the use made of them; and

   (b) are brought into its territory for one of the following purposes:

      (i) goods intended for display or use at playgrounds, theatres, exhibitions, fairs or other similar events;

      (ii) professional equipment, necessary to carry out a trade or profession, which qualifies for temporary entry pursuant to the laws or regulations of the Party;

      (iii) commercial samples and advertising films and recordings;

      (iv) containers and pallets which are durable, reusable and that are in use or to be used in the shipment of goods in international traffic;

(v) goods imported exclusively for educational or scientific purposes or cultural activities and events; and

(vi) goods imported for sports purposes.

2. Neither Party shall impose any condition on the temporary admission of the goods referred to in paragraph 1, other than to require that such goods:

(a) are intended for re-exportation without having undergone any change except normal depreciation and wastage due to the use made of them.

(b) be accompanied by a security deposit, if requested by the importing Party, in an amount no greater than the customs duty or charges that would otherwise be owed on importation, releasable on exportation of the good;

(c) be exported on the departure of the person referred to in subparagraph 1(a) or within such period of time as is reasonably related to the purpose of temporary admission;

(d) be capable of identification when exported;

(e) not be sold or leased while in its territory;

(f) not be imported in a quantity greater than is reasonable for its intended use; and

(g) be otherwise admissible into the importing Party's territory under its laws.

3. If any condition that a Party imposes under paragraph 2 has not been fulfilled, that Party may apply the customs duty and any other charge that would normally be owed on importation of the good, as well as any other charges or penalties provided for under its laws.

4. Each Party shall at the request of the importer and for reasons deemed valid by its Customs Administration, extend the time limit for temporary admission beyond the period initially fixed, in accordance with its laws and regulations.

5. Each Party may, in accordance with its laws and regulations, relieve the importer, or other person responsible for goods admitted in accordance with this Article, of liability for failure to export a temporarily admitted good upon presentation of satisfactory proof to the Party's Customs Administration that the good has been destroyed within the original time limit for temporary admission or any lawful extension.

Article 2.12
Duty-Free Entry of Commercial Samples of Negligible Value and Printed Advertising Materials

Each Party shall, in accordance with its laws and regulations, grant duty-free entry to commercial samples of negligible value, and to printed advertising materials, imported from the territory of the other Party, regardless of their origin, but may require that:

(a) such samples be imported solely for the solicitation of orders for goods, or the solicitation of orders for services provided from the territory, of the other Party or a non-Party; or

(b) such advertising materials be imported in packets that each contain no more than one copy of each such material and that neither such materials nor packets form part of a larger consignment.

Article 2.13
Goods Returned or Re-Entered After Repair or Alteration

1. A Party may not apply a customs duty to a good, regardless of its origin, that re-enters its territory after that good has been exported from its territory to the territory of the other Party for repair or alteration, regardless of whether such repair or alteration could be performed in its territory, except that a customs duty may be applied to the value addition resulting from the repair or alteration in accordance with a Party's laws and regulations that was performed in the territory of the other Party.

2. Paragraph 1 does not apply to:

   (a) a good that has not entered into free circulation[1] in a Party prior to being exported for repair or alteration; or

   (b) any materials used in the repair or alteration which were not in free circulation in the Party where the repair or alteration occurred, unless a payment equivalent to the applicable duty for that material to enter into free circulation has subsequently been made.

3. A Party may not apply a customs duty to a good, regardless of its origin, imported temporarily from the territory of the other Party for repair or alteration provided such good is exported from the territory of the importing Party in accordance with a Party's laws and regulations.

[1] In "free circulation" means the good has cleared customs, applicable duties have been paid, and the good is available for use in the domestic market of the importing Party.

4. For the purposes of this Article, “repair” or “alteration” does not include an operation or process that:

   (a) destroys a good’s essential characteristics or create a new or commercially different good;

   (b) transforms an unfinished good into a finished good; or

   (c) substantially changes the function of a good.

Article 2.14
Export Subsidies

Article 2.15
Publication and Administration of Trade Regulations

1. Each Party shall administer in a uniform, impartial and reasonable manner all its laws, regulations, decisions and rulings with respect to any matter covered by this Chapter. To this end, Article X of GATT 1994 is incorporated into and made part of this Agreement, *mutatis mutandis*.

2. To the extent possible, each Party shall make its laws, regulations, decisions and rulings of the kind referred to in paragraph 1 publicly available on the internet.

Article 2.16
Data Sharing on Preference Utilisation

1. For the purpose of monitoring the functioning of this Agreement and calculating preference utilisation rates, the Parties shall annually, or as otherwise agreed by the Committee on Trade in Goods, exchange comprehensive import statistics. Such exchanges shall take place in advance of each meeting of the Committee on Trade in Goods.

2. The exchange of import statistics shall cover data pertaining to the most recent calendar year available, including value and volume, at the tariff line level for imports of goods of the other Party benefitting from preferential duty treatment under this Agreement and for the import of those goods that received non-preferential treatment.

Article 2.17
Committee on Trade in Goods

1. The Parties hereby establish a Committee on Trade in Goods ("Goods Committee") composed of government representatives of each Party.

2. The functions of the Goods Committee shall include:

   (a) reviewing and monitoring the implementation and operation of this Chapter;

   (c) adopt decisions or make recommendations;

   (d) addressing issues relating to the administration and operation of tariff-rate quotas;

   (e) examining any issues that may arise on matters related to future amendments to the Harmonized System, including transposition of Parties' Schedules to Annex 2A (Schedules of Tariff Commitments) and on matters related to the classification of goods under the Harmonised System, and endeavouring to seek appropriate solutions through consultation and dialogue, to ensure that the obligations of each Party under this Agreement are not altered;

   (f) reviewing data on trade in goods in relation to the implementation of this Chapter;

   (g) assessing matters that relate to trade in goods and undertaking any additional work that the Joint Commission may assign to it; and

   (h) reporting on its activities and work programme to the Joint Commission.

3. The Goods Committee shall meet within one year of the date of entry into force of this Agreement and annually thereafter or as otherwise agreed. Meetings may occur in person, or by any other means as mutually determined by the Parties.

4. The Goods Committee may establish technical working groups to consider any matter relating to this Chapter that creates disruption or may affect trade in goods between the Parties. Any technical working

group established shall report to the Goods Committee on the progress of its work.

Article 2.18
Contact Points

1. Each Party shall, within 60 days of the date of entry into force of this Agreement, designate a contact point to facilitate communication between the Parties on any matter relating to this Chapter. Each Party shall promptly notify the other Party, in writing, of any change to its contact point.

2. Where a Party considers that any proposed or actual measure of the other Party may materially affect trade in goods between the Parties, that Party may, through the contact point for this Chapter, request detailed information relating to that measure and, if necessary, request consultations with a view to resolving any concerns about the measure. The other Party shall respond as promptly as practicable to such requests for information and consultations.

If the exporter, producer, approved exporter, or status holder of the good has been involved in the verification process they shall be notified on the outcome of the verification process.

13. Article 3.26
Denial of Preferential Tariff Treatment

1. The importing Party may deny a claim for preferential tariff treatment if:

   (a) it determines that the good does not qualify as originating within the terms of this Chapter or does not satisfy the requirement(s) of this Chapter;

   (b) pursuant to a verification under Article 3.25 (Verification of Origin and Procedures), it has not received sufficient

information to determine that the good qualifies as originating including;

(ii) the importer, exporter, producer, approved exporter, or status holder, fails to comply with any of the relevant requirements for obtaining preferential tariff treatment;

(iii) the importer, exporter, producer, approved exporter, or status holder, or the issuing bodies or authorities, as appropriate, of the exporting Party fail to provide sufficient information and documents, within the prescribed timelines;

(iv) the exporter, producer, approved exporter, or status holder, fails to give consent or respond to a request for a verification visit.

2. If an importing Party denies a claim for preferential tariff treatment, it shall notify the importer in writing along with the reasons for such determination.

3. If the importing Party establishes non-compliance of the goods with the rules of origin, duties shall be levied in accordance with the law of the importing Party.

Article 3.27
Temporary Suspension of Preferential Treatment

1. If, following a verification procedure, the importing Party establishes that the importer, exporter, producer, approved exporter, or status holder, has persistently or deliberately misrepresented the origin status of the goods, the importing and exporting Party shall consult with a view to take appropriate measures. If these measures are insufficient to prevent a reoccurrence of the misrepresentation, the importing Party may temporarily suspend preferential tariff treatment for that exporter, producer, approved exporter, or status holder.

2. Based on consultations referred to in paragraph 1 and in any case no longer than 2 months from the date of initiating consultations, a decision whether or not to suspend tariff preference may be taken by the importing Party. The importing Party shall notify the decision, including its reasoning, to the exporting Party, within 30 days after informing the importer accordingly.

3. If verification procedures have shown that two or more exporters, producers, approved exporters, or status holders, of one Party have

persistently or deliberately misrepresented the origin status of goods in a Proof of Origin for the same good at the six digit HS classification level declared to the customs administration of the importing Party and this same good of these exporters, producers, approved exporters, or status holders, accounts for more than half of the preferential imports of the same good in value terms from the exporting party over a period of 1 year prior to the first verification request, the importing Party may submit the matter to the Technical Committee on Rules of Origin and to the Joint Commission with a view to temporarily suspend preferential treatment for all imports of that good from the exporting Party.

4. The Technical Committee on Rules of Origin shall discuss the matter and shall make a recommendation to the Joint Commission within 6 months from the date of submission on whether or not the importing Party may suspend the granting of preferential tariff treatment for this good as a temporary measure. The importing Party may only suspend preferential treatment if the recommendation of the Technical Committee on Rules of Origin is agreed by the Joint Commission.

5. The temporary suspension shall apply only for a period no longer than 6 months or any other period that the Parties agree. Where the condition that gave rise to initial temporary suspension persists at the expiry of the 6-month period, the Party concerned may decide to renew the temporary suspension. Any such renewal shall be subject to periodic consultations within the Technical Committee on Rules of Origin.

6. Following a temporary suspension at exporter level referred to in paragraph 1 or a Joint Commission decision for temporary suspension as referred to in paragraph 4 and pursuant to the conclusion of consultations between the Parties concerned, and the Parties, where applicable, agree that the exporter, or producer or approved exporter or status holder(s) has adopted appropriate remedial measures, the importing Party shall agree to:

   (a) restore preferential benefit to the good with retrospective effect; or

   (b) restore preferential benefit to the good with prospective effect, subject to implementation of any mutually agreed measures by one or both Parties.

Application of a Bilateral Safeguard Measure

1. If, as a result of the elimination or reduction of a customs duty under this Agreement, an originating good from a Party is being imported into the territory of the other Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to cause or threaten to cause serious injury to a domestic industry producing a like or directly competitive good, the other Party may during the transition period, apply either of the bilateral measures provided for in paragraph 2.

2. If the conditions in paragraph 1 are met, the importing Party may apply one of the following bilateral safeguard measures:

(a) suspension of the further reduction of the rate of customs duty on the good concerned provided for under this Agreement; or

(b) increase in the rate of customs duty on the good concerned to a level which does not exceed the lesser of:

(i) the most-favoured-nation applied rate of customs duty on the good in effect at the time the bilateral safeguard measure is applied; and

(ii) the most-favoured-nation applied rate of customs duty on the good in effect on the day immediately preceding the date of entry into force of this Agreement.

3. Neither Party shall apply or maintain a bilateral safeguard measure or provisional bilateral safeguard measure under this Chapter to any good imported under a tariff rate quota established by the Party under this Agreement.

Article 5.7
Conditions and Limitations

1. A Party may apply a bilateral safeguard measure only following an investigation by the Party's competent authorities in accordance with the procedures and requirements provided for in Articles 3 and 4.2 of the Safeguards Agreement, and to this end, Articles 3 and 4.2 of the Safeguards Agreement are incorporated into and made part of this Agreement, *mutatis mutandis.*

2. A Party shall notify the other Party immediately in writing upon it initiating an investigation described in paragraph 1 and shall provide adequate opportunity for prior consultations with the other Party in advance of applying a bilateral safeguard measure, with a view to reviewing the information arising from the investigation and exchanging views on the bilateral safeguard measure.

3. Each Party shall ensure that its competent authorities complete any such investigation within one year of the date of its initiation.

4. Neither Party shall apply or maintain a bilateral safeguard measure:

(a) except to the extent, and for such time, as may be necessary to prevent or remedy serious injury and to facilitate adjustment of the domestic industry;

(b) for a period exceeding two years, except that the period may be extended by up to one year if the competent authorities of

the applying Party determine, in conformity with the procedures specified in this Article, that the bilateral safeguard measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment of the domestic industry and that there is evidence that the industry is adjusting.

5. Regardless of its duration, any bilateral safeguard measure or provisional bilateral safeguard measure shall terminate at the end of the transition period.

6. No bilateral safeguard measure shall be applied again to the import of a good which has been previously subject to such a measure, for a period of time equal to that during which such measure was applied, or one year since the expiry of such measure, whichever is longer.

7. Notwithstanding the provisions of paragraph 6, a bilateral safeguard measure with a duration of 180 days or less may be applied again to the import of a good if:

   (a) at least one year has elapsed since the date of introduction of a bilateral safeguard measure on the import of that good; and

   (b) a bilateral safeguard measure has not been applied on the same good more than twice in the five-year period immediately preceding the date of the first imposition of the bilateral safeguard measure.

8. A Party shall not apply a bilateral safeguard measure or provisional bilateral safeguard measure on a good that is subject to a global safeguard measure under Article XIX of GATT 1994 and the Safeguards Agreement. A Party shall not continue to maintain a bilateral safeguard measure or provisional bilateral safeguard measure on a good that becomes subject to a global safeguard measure.

9. In order to facilitate adjustment in a situation where the expected duration of a bilateral safeguard measure is more than one year, the Party that applies the measure shall progressively liberalise it at regular intervals during its period of application.

10. When a Party ceases to apply a bilateral safeguard measure, the rate of customs duty shall be the rate that would have been in effect in accordance with the Party's Schedule to Annex 2A (Schedules of Tariff Commitments for Goods) but for the bilateral safeguard measure.

Article 5.8
Provisional Bilateral Safeguard Measures

1. In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a provisional bilateral safeguard measure pursuant to a preliminary determination by its competent

authorities that there is clear evidence that imports of an originating good from the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and have caused serious injury, or threat of serious injury, to its domestic industry.

2. Before applying a provisional bilateral safeguard measure the applying Party shall notify the other Party of the preliminary determination and shall immediately initiate consultations after applying the provisional bilateral safeguard measure.

3. A provisional bilateral safeguard measure shall not be maintained for more than 200 days, during which time the applying Party shall comply with Article 5.6 (Application of a Bilateral Safeguard Measure) and Article 5.7 (Conditions and Limitations).

4. The applying Party shall refund promptly any increase in customs duty paid as a result of the adoption of the provisional bilateral safeguard measure if the applying Party's investigating authority determines that the requirements of paragraph 1 of Article 5.6 (Application of a Bilateral Safeguard Measure) are not met.

5. The duration of any provisional bilateral safeguard measure shall be counted as part of the period described in subparagraph 4(b) of Article 5.7 (Conditions and Limitations).

Article 5.9
Compensation

1. A Party applying a bilateral safeguard shall consult with the other Party in order to mutually agree on appropriate trade liberalising compensation in the form of concessions having substantially equivalent trade effect or equivalent to the value of the additional duties expected to result from the application of the bilateral safeguard measure. The Party shall provide an opportunity for those consultations no later than 30 days after the application or the extension of the bilateral safeguard.

2. If the consultations under paragraph 1 do not result in the Parties agreeing on trade liberalising compensation no later than 30 days after consultations begin, the Party whose goods are subject to the bilateral safeguard measure may suspend substantially equivalent concessions to the trade of the Party applying the bilateral safeguard. This action shall be applied only for the minimum period necessary to achieve the substantially equivalent effects.

3. The right to take action referred to in paragraph 2 shall not be exercised for the first two years that the measure is in effect, which includes the

period of time that any provisional bilateral safeguard measure has been in effect.

Article 5.10
Agricultural Safeguards

Originating agricultural goods from a Party shall not be subject to any duties applied by a Party pursuant to a special safeguard taken under the Agreement on Agriculture.

Article 5.11
Non-Application of Dispute Settlement

Neither Party shall have recourse to dispute settlement under Chapter 19 (Dispute Settlement) for any matter arising under Section A or B of this Chapter.

CHAPTER 6

SANITARY AND PHYTOSANITARY MEASURES

Article 6.1
Definitions

1. For the purposes of this Chapter:

   (a) the definitions set out in Annex A to the SPS Agreement shall apply;

   (b) **"competent authorities"** mean those national government authorities within each Party recognised by the national government as responsible for developing and administering sanitary and phytosanitary ("SPS") measures within that Party;

   (c) **"emergency measure"** means a sanitary or phytosanitary measure that is applied by the importing Party to the products of the exporting Party to address an urgent problem of human, animal or plant life or health protection that arises or threatens to arise in the Party applying the measure; and

   (d) "**SPS Agreement"** means the *Agreement on the Application of Sanitary and Phytosanitary Measures*, set out in Annex 1A to the WTO Agreement.

2. The Parties shall take into consideration the terms and definitions of relevant international organisations, such as the Codex Alimentarius Commission ("Codex"), the World Organisation for Animal Health ("WOAH") and the International Plant Protection Convention ("IPPC"). In the event of an inconsistency between those terms and definitions and the definitions set out in the SPS Agreement, the definitions set out in the SPS Agreement shall prevail.

Article 6.2
Objectives

The objectives of this Chapter are to:

(a) reaffirm the rights and obligations of both Parties under the SPS Agreement, while supporting its enhanced implementation;

(b) provide a framework and mechanisms to facilitate bilateral trade between the Parties, while protecting human, animal or plant life or health;

(c) enhance transparency and deepen mutual understanding of each Party's regulations and procedures relating to SPS measures, and ensure that such measures do not create unjustified barriers to trade; and

(d) strengthen cooperation, communication and consultation between the Parties.

Article 6.3
Scope

This Chapter applies to all SPS measures of a Party that may, directly or indirectly, affect trade between the Parties.

Article 6.4
Affirmation of the SPS Agreement

1. The Parties reaffirm their rights and obligations with respect to each other under the SPS Agreement.

2. Nothing in this Chapter shall affect the rights and obligations of each Party under the SPS Agreement.

Article 6.5
Risk Assessment

1. Each Party shall base its sanitary and phytosanitary measures with respect to trade with the other Party on relevant international standards, guidelines or recommendations, where they exist, except as otherwise provided in the SPS Agreement.

2. The Parties shall strengthen their cooperation on risk assessment in accordance with the SPS Agreement while taking into account the relevant decisions of the WTO SPS Committee and international standards, guidelines and recommendations.

3. When conducting a risk assessment specific to trade between them, the importing Party shall:

   (a) on request, inform the exporting Party of the progress, including the reason for any delays;

(b) consider options that are not more trade-restrictive than required to achieve its appropriate level of protection, taking into account technical and economic feasibility; and

(c) provide an opportunity for the exporting Party to comment.

4. Based on mutually agreed priorities, each Party shall endeavour to progress requested risk assessments for products and, once completed, endeavour to ensure trade is facilitated without undue delay.

5. Without prejudice to emergency measures, the importing Party shall not stop the importation of a product of the other Party solely for the reason that the importing Party is undertaking a review of a sanitary or phytosanitary measure, if the importing Party permitted importation of the product of the other Party at the time of the initiation of the review.

Article 6.6
Adaptation to Regional Conditions

1. The Parties recognise the concepts of regional conditions, including pest- or disease-free areas and areas of low pest or disease prevalence, as set out in Article 6 of the SPS Agreement and that the adaptation of SPS measures to recognise regional conditions is an important means of facilitating trade. In developing SPS measures based on regionalisation, the Parties shall take into account the relevant decisions of the WTO SPS Committee and relevant international standards, guidelines and recommendations.

2. The Parties may cooperate on the recognition of regional conditions with the objective of acquiring confidence in the procedures followed by each other for such recognition. In doing so, the Parties may promote information sharing in this area and on related matters. The Parties may agree to recognise regionalisation decisions, including official control programmes, zones and compartments, and the associated certification variations, including for WOAH or IPPC recognised treatments, ahead of changes to their regional animal or plant health status.

3. If the importing Party adopts or maintains an SPS measure applicable to the exporting Party, and the exporting Party establishes officially controlled regional conditions, the exporting Party may request the importing Party recognise its regional conditions for any relevant pest or disease.

4. When the importing Party has received such a request for recognition of regional conditions from the exporting Party and has determined that the information provided by the exporting Party is sufficient, it shall initiate an assessment within a reasonable period of time. If the

exporting Party so requests, the importing Party shall also explain the process it undertakes for recognising regional conditions.

5. Reasonable access shall be given, upon request, to the importing Party for inspection, testing and other relevant procedures for the assessment.

6. On request of the exporting Party, the importing Party shall inform the exporting Party of the status of the assessment.

7. If the importing Party adopts a measure that recognises specific regional conditions of the exporting Party, the importing Party shall communicate that decision to the exporting Party in writing and implement the measure within a reasonable period of time.

8. If the evaluation of the evidence provided by the exporting Party does not result in a decision by the importing Party to recognise the regional conditions of the exporting Party, the importing Party shall provide the exporting Party the rationale for its decision in writing within a reasonable period of time.

9. If there are circumstances that result in the importing Party modifying or revoking a determination recognising regional conditions of the exporting Party, the importing Party shall notify the exporting Party as soon as possible. On request of the exporting Party, the Parties shall cooperate to assess whether the determination can be reinstated.

Article 6.7
Equivalence

1. The Parties shall strengthen cooperation on equivalence in accordance with the SPS Agreement, taking into account relevant decisions of the WTO SPS Committee and relevant international standards, guidelines and recommendations, in order to facilitate trade between them.

2. The importing Party shall accept the sanitary or phytosanitary measures of the other Party as equivalent even if these measures differ from their own or from those used by other countries, if the exporting Party objectively demonstrates to the importing Party that its measures achieve the importing Party's appropriate level of protection or that its measures have the same effect in achieving the objective as the importing Party's measures. The Parties recognise that equivalence can be accepted for a specific measure or measures related to certain product or categories of products or on a system-wide basis.

3. In determining equivalence, the importing Party shall take into account available information and experience as well as the knowledge of the regulatory competence of the exporting Party.

4. A Party shall, upon request, enter into consultations with the aim of achieving bilateral recognition agreements or arrangements of equivalence on the specified SPS measures.

5. As part of consultations, on request by the exporting Party, the importing Party shall explain and provide:

   (a) the rationale and objective of its measures; and

   (b) the specific risks its measures are intended to address.

6. The exporting Party shall provide necessary information in order for the importing Party to commence an equivalence assessment. Once the assessment commences, the importing Party shall, upon request, without undue delay explain the process and plan for making an equivalence determination.

7. The consideration by the importing Party of a request from the exporting Party for recognition of equivalence of its measures with regard to a specific product, or group of products, shall not be in itself a reason to disrupt or suspend ongoing imports from the exporting Party.

8. When the importing Party has concluded its assessment, it shall notify the equivalence determination to the exporting Party in writing. If an equivalence determination does not result in recognition by the exporting Party, the importing Party shall provide the exporting Party with the rationale for its decision.

9. If a Party proposes to adopt, modify, amend, repeal or remove an SPS measure which it considers may have a significant impact on trade in products that are the subject of an equivalence agreement or arrangement between the Parties, it shall notify the other Party and indicate its likely effect on recognition of equivalence.

10. Following such a notification from the exporting Party, the importing Party shall continue to apply its determination of equivalence unless it considers that the equivalence agreement or arrangement is no longer sufficient to meet its appropriate level of protection. If the importing Party considers that equivalence can be maintained under new or revised conditions it shall consult with the exporting Party on their development.

11. If the importing Party considers that equivalence cannot be maintained and it can no longer apply its determination of equivalence, the exporting Party may request consultations with the aim of once again

achieving a bilateral recognition arrangement of equivalence, consistent with the provisions of this Article.

Article 6.8
Certification, Import Permits and Approval Procedures

1. Each Party shall ensure measures related to certification, import permit and approval procedures are in accordance with relevant provisions of Annex C of the SPS Agreement and take into account the relevant decisions of the WTO SPS Committee, and international standards, guidelines or recommendations.

2. The Parties may strengthen cooperation with respect to paragraph 1, including on import permit requirements, with a view to reduce duplication between the Parties.

3. The Parties shall work cooperatively to promote the implementation of paperless trade through electronic SPS certification.

4. Where certification is required for trade in a product, the importing Party shall ensure that such certification is applied, in meeting its SPS objectives, only to the extent necessary to protect human, animal or plant life or health.

5. Where import permits are required for trade in a product, the importing Party shall endeavour to ensure that such permits reflect those requirements that are necessary to meet its appropriate level of protection and are issued without undue delay and on a non-discriminatory basis.

6. The Parties may develop simplified certificate models and attestations where equivalence, regionalisation or other recognitions have been agreed under this Chapter.

7. The Parties may also develop simplified establishment and product approval processes based on the recognition of control, inspection and approval processes already applied in the territory of the other Party.

Article 6.9
Audits

1. Each Party shall undertake audits in accordance with the relevant provisions of Annex C of the SPS Agreement and take into account the relevant decisions of the WTO SPS Committee, and international standards, guidelines or recommendations.

2. An audit shall be systems-based and conducted to assess the effectiveness of the official regulatory controls of the competent

authorities of the exporting Party, or apply to individual establishments or facilities where necessary, to provide the required assurances and meet the SPS measures of the importing Party.

3. Prior to the commencement of an audit, the importing Party and the exporting Party shall exchange information and endeavour to agree on the objectives and scope of the audit and other matters related specifically to the commencement of an audit.

4. The importing Party shall set forth its findings, preliminary conclusion and, if applicable, its recommendation in a draft audit report to the exporting Party with an opportunity to comment on it and take any such comments into account before making its conclusions and taking any action. The importing Party shall provide a detailed report and its summary, setting out its conclusions in writing, to the exporting Party within a reasonable period of time.

5. Measures taken by the importing Party as a consequence of its audit shall be supported by objective evidence and data, take into account the importing Party's knowledge of, relevant experience with, and confidence in, the exporting Party, and shall not be more trade-restrictive than necessary to achieve the importing Party's appropriate level of protection. Any such objective evidence and data shall be provided to the audited Party, on request.

6. Any costs incurred by the auditing Party shall be borne by the auditing Party, unless the Parties agree otherwise.

7. The auditing Party and the audited Party shall each ensure that procedures are in place to prevent the disclosure of confidential information acquired during the auditing process.

Article 6.10
Import Checks

1. Each Party shall undertake import checks in accordance with relevant provisions of Annex C of the SPS Agreement and take into account the relevant decisions of the WTO SPS Committee, and international standards, guidelines or recommendations.

2. Import checks, conducted in accordance with the importing Party's laws, regulations, and sanitary and phytosanitary requirements, shall be based on the sanitary and phytosanitary risk associated with importations from the exporting Party. The import checks shall be carried out in a manner that is not more trade-restrictive than required to achieve its appropriate level of protection and be applied without undue delay using appropriate risk-based sampling methodologies. The Parties may agree to amend the frequency or intensity of import

checks that would normally apply to a commodity class based on the performance of each other's national controls.

3. In the event that import checks reveal a non-compliance, the final decision or action taken by the importing Party shall be appropriate to the sanitary and phytosanitary risk associated with the importation of the non-compliant product.

4. If an importing Party prohibits or restricts the importation of a good of an exporting Party on the basis of an import check finding sanitary or phytosanitary non-compliance, the importing Party shall notify the importer or its representatives and, where appropriate, the exporting Party and certifying competent authority, of such non-compliance.

5. The importing Party shall provide the importer or its representatives located within the territory of the importing Party and, where appropriate, the exporting Party and certifying competent authority with an opportunity for a review of the decision. If a review is undertaken, the importing Party shall consider any relevant information submitted to assist it in the review, and it shall carry out the review within a reasonable period of time.

6. When significant or recurring sanitary or phytosanitary non-compliance associated with exported consignments is identified by the importing Party, the Parties shall, on request of either Party, discuss the non-compliance to ensure that appropriate remedial actions are taken to reduce such non-compliance.

7. Unless there is a clearly identified high risk, the importing Party shall provide means other than destruction to manage the risk, such as relabelling, treatment, where available, or re-export.

Article 6.11
Contact Points and Competent Authorities

1. By the date of entry into force of this Agreement, each Party shall:

   (a) designate a contact point to facilitate communication and the exchange of information between the Parties on matters arising under this Chapter;

   (b) provide the other Party with a list of its competent authorities responsible for developing and administering SPS measures within its territory, including a description of their structure, organisation and division of functions and responsibilities; and

   (c) the list of contact points and competent authorities shall be recorded in an implementing arrangement.

2. Each Party shall notify the other Party of any changes to its contact point and significant changes in the structure, organisation and division of responsibility within its competent authorities.

Article 6.12
Transparency and Exchange of Information

1. Each Party shall, in accordance with the transparency obligations contained in the SPS Agreement, notify the contact point referred to in Article 6.11 (Contact Points and Competent Authorities) of the other Party of any new or revised SPS measures that may affect trade between the Parties, including emergency measures imposed to protect human, animal or plant life or health.

2. When the information referred to in paragraph 1 has been made available via notification to the WTO's Central Registry of Notifications, or to the relevant international organisation, the requirements in paragraph 1 shall be deemed to have been fulfilled.

3. A Party shall respond within a reasonable period of time to any request for relevant information or clarification from the other Party regarding its SPS measures, including with respect to model certificates or attestations.

4. In implementing this Chapter, both Parties shall take into account relevant decisions of the WTO SPS Committee and international standards, guidelines and recommendations.

5. A Party may request relevant information from the other Party on any matter arising under this Chapter, or any other SPS measure of the other Party affecting trade between the Parties, where such information has not already been included in a notification to the SPS Committee or has not otherwise been made publicly available. A Party that receives a reasonable request for information shall provide available information to the requesting Party within a reasonable period of time.

6. If the importing Party determines that there is a significant, sustained or recurring pattern of non-conformity with a sanitary or phytosanitary measure, the importing Party shall notify the exporting Party of the non-conformity.

7. Unless urgent problems of human, animal or plant life or health protection arise or threaten to arise, or the measure is of trade facilitating nature, the Party proposing an SPS measure shall normally allow at least 60 days for the other Party to provide written comments on the proposed measure after it makes a notification to the WTO. If feasible and appropriate, the Party proposing the measure may allow more than 60 days. The Party proposing the measure shall consider

any reasonable request from the other Party to extend the comment period.

Article 6.13
Cooperation and Capacity Building

1. The Parties through the Committee on SPS matters shall explore opportunities for further cooperation, collaboration and information exchange, including through their competent authorities, on SPS matters of mutual interest, consistent with the objectives of this Chapter. This may include the provision of technical assistance and capacity building, subject to the availability of appropriate resources.

2. In undertaking cooperation activities, the Parties shall endeavour to coordinate with bilateral, regional or multilateral work programmes with the objective of avoiding unnecessary duplication and maximising the use of resources.

Article 6.14
SPS Committee

1. The Parties hereby establish a Committee on SPS Measures ("SPS Committee") under Article 17.5 (Committees and Subsidiary Bodies), consisting of representatives from relevant competent authorities and government agencies of each Party.

2. The SPS Committee shall review the progress made by the Parties in implementing their commitments under this Chapter and may establish ad-hoc subsidiary working groups to consider specific issues relating to the implementation of this Chapter.

3. The SPS Committee shall provide a forum to facilitate information exchange and enable either Party to raise and discuss any SPS matter related to trade, including biosecurity matters, between the Parties. The SPS Committee may also develop action plans including those that may relate to cooperation and capacity building.

4. The Parties may, where mutually agreed, develop bilateral implementing arrangements to set out mutually determined understandings and details for applying this Chapter, including for example those documenting the recognition of: Equivalence; Regionalisation; Product Treatments; Certification, Controls, Inspections and Approval Processes; Import Permits; Audits; Establishment Lists; Import Checks; changes to contact points and competent authorities; the use of CODEX or National Maximum Residue Limits for import; and any other matter as mutually decided.

5. The SPS Committee shall meet within one year of the date of entry into force of this Agreement and thereafter as mutually determined by the Parties. Meetings may occur in person, by teleconference, by video conference, or through any other means as mutually determined by both the Parties. The SPS Committee shall establish its rules of procedure at its first meeting. All decisions of the SPS Committee shall be made by consensus.

6. The SPS Committee may hold joint meetings with the Biosecurity, Food and Primary Products Committee to consider additional matters within the regulatory authority of the competent authorities. The SPS Committee shall provide any recommendations or report to the Joint Commission as necessary.

Article 6.15
Technical Consultations

1. If a Party has specific trade concerns regarding SPS measures proposed or implemented by the other Party, it may request technical consultations with the other Party. The other Party shall respond promptly to any reasonable request for such consultation.

2. The Parties shall hold such technical consultations within 30 days of the date of the request, unless otherwise agreed by the Parties.

3. Where a Party considers that an SPS measure of the other Party is affecting its trade with the other Party, it may, through the contact points referred to in Article 6.11 (Contact Points and Competent Authorities) or other established communication channels, request a detailed explanation of the SPS measure, including the scientific basis of the measure. The other Party shall respond promptly to any request for such an explanation. The Parties shall endeavour to reach a mutually satisfactory resolution.

4. The technical consultations may be conducted via teleconference, videoconference, or through any other means agreed by the Parties.

Article 6.16
Emergency SPS Measures

1. If a Party adopts an emergency measure that is necessary for the protection of human, animal or plant life or health and that may have an effect on trade between the Parties, that Party shall notify the other Party of that measure through the contact point referred to in Article 6.11 (Contact Points and Competent Authorities) as soon as possible. The importing Party shall take into consideration any information provided by the other Party in response to the notification.

2. On request of the other Party, a Party adopting an emergency SPS measure shall engage in technical consultations within 15 days of the date of such request, unless otherwise agreed by the Parties.

3. The importing Party shall consider any information provided in a timely manner by the exporting Party when making decisions with respect to one or more consignments that, at the time of adoption of an emergency SPS measure, are being transported between the Parties.

4. If a Party adopts an emergency measure, it shall review the scientific basis of that measure within six months of the date of the adoption of the measure, with the aim of revoking or developing a revised measure that would permit trade to recommence, and provide the results of the review to the other Party on request. If the emergency measure is maintained after the review of the measure, the importing Party shall periodically review the measure at least every six months thereafter based on the most recent available information, and, upon request, shall explain the reasons for the continuation of the emergency measure.

5. If the exporting Party considers, on the basis of scientific evidence, that an emergency measure is being maintained by the importing Party without reasons, it may provide that evidence to the other Party and request the other Party to review the measure or engage in technical consultations under Article 6.15 (Technical Consultations).

Article 6.17
Non-Application of Dispute Settlement

1. Neither Party shall have recourse to dispute settlement under Chapter 19 (Dispute Settlement) for any matter arising under this Chapter.

2. The SPS Committee shall undertake a review of the application of dispute settlement under this Chapter four years from the date of entry into force of this Agreement. Following the review, the SPS Committee may submit recommendations to the Joint Commission for their consideration.

CHAPTER 7

TECHNICAL BARRIERS TO TRADE

Article 7.1
Definitions

For the purposes of this Chapter, the terms and their definitions provided in Annex 1 of the *Agreement on Technical Barriers to Trade*, set out in Annex 1A to the WTO Agreement ("TBT Agreement") shall apply.

Article 7.2
Objectives

The objectives of this Chapter are to facilitate trade in goods between the Parties by:

(a) ensuring that standards, technical regulations, and conformity assessment procedures do not create unnecessary obstacles to trade;

(b) furthering the implementation of the TBT Agreement;

(c) promoting mutual understanding of each Party's standards, technical regulations, and conformity assessment procedures;

(d) facilitating information exchange and cooperation between the Parties in the field of standards, technical regulations, and conformity assessment procedures including in the work of relevant international bodies; and

(e) addressing the issues that may arise under this Chapter.

Article 7.3
Scope

1. This Chapter shall apply to the standards, technical regulations, and conformity assessment procedures of central government bodies that may affect trade in goods between the Parties. This Chapter shall not apply to:

    (a) any sanitary or phytosanitary measure, which is covered by Chapter 6 (Sanitary and Phytosanitary Measures); and

(b) purchasing specifications prepared by governmental bodies for production or consumption requirements of governmental bodies.

2. Each Party shall take such reasonable measures as may be available to it to ensure compliance, in the implementation of this Chapter by local government bodies, and non-governmental bodies within its territory which are responsible for the preparation, adoption, and application of standards, technical regulations, and conformity assessment procedures.

3. Nothing in this Chapter shall prevent a Party from preparing, adopting, applying, or maintaining standards, technical regulations, and conformity assessment procedures in a manner consistent with the TBT Agreement and this Chapter.

Article 7.4
Reaffirmation of the TBT Agreement

The Parties reaffirm their rights and obligations under the TBT Agreement.

Article 7.5
Standards

1. The Parties recognise the important role that international standards, guides, and recommendations can play in supporting greater alignment of technical regulations, conformity assessment procedures, and national standards, and in reducing unnecessary barriers to trade.

2. In determining whether an international standard, guide, or recommendation within the meaning of Articles 2 and 5 and Annex 3 of the TBT Agreement exists, each Party shall base its decision on the principles set out in the relevant *Decision of the Committee on Principles for the Development of International Standards, Guides and Recommendations with relation to Articles 2, 5 and Annex 3 of the Agreement* (G/TBT/9, 13 November 2000, Annex 4), and subsequent relevant decisions and recommendations in this regard, adopted by the WTO Committee on Technical Barriers to Trade ("WTO TBT Committee").

3. With respect to the preparation, adoption and application of standards, each Party shall ensure that its standardising body or bodies that prepare, adopt and apply national standards accept and comply with Annex 3 of the TBT Agreement.

4. The Parties shall, where appropriate, strengthen coordination and communication with each other in the context of discussions on

international standards and related issues in other international fora, such as the WTO TBT Committee.

5. Where modifications to the contents or structure of the relevant international standards were necessary in developing a Party's national standards, that Party shall, on request of the other Party, encourage its standardising body or bodies to provide information on the differences in the contents and structure, and the reason for those differences. Any fees charged for this service shall, apart from the real cost of delivery, be the same for foreign and domestic persons.

6. Further to paragraph 5, each Party shall ensure that its standardising body or bodies do not prepare, adopt or apply standards with a view to, or with the effect of, creating unnecessary obstacles to international trade.

7. Each Party shall encourage cooperation between its standardising body or bodies in its territory and the standardising body or bodies of the other Party, in areas such as:

   (a) exchange of information on standards;

   (b) exchange of information relating to standard setting procedures; and

   (c) international standardising activities in areas of mutual interest.

Article 7.6
Technical Regulations

1. Each Party shall use relevant international standards or the relevant parts of them, to the extent provided in paragraph 4 of Article 2 of the TBT Agreement, as a basis for its technical regulations. Where a Party does not use such international standards, or their relevant parts, as a basis for its technical regulations, and these may have an effect on the trade of the other Party, it shall, on request from the other Party, explain the reasons why such standards have been considered inappropriate or ineffective to achieve the aims of its technical regulations.

2. In implementing paragraph 2 of Article 2 of the TBT Agreement, each Party shall consider available alternatives in order to ensure that the proposed technical regulations to be adopted are not more trade-restrictive than necessary to fulfil a legitimate objective.

3. Each Party shall give positive consideration to accepting as equivalent, technical regulations of the other Party, even if those regulations differ from its own, provided it is satisfied that those regulations adequately fulfil the objectives of its own regulations.

4. Where a Party does not accept a technical regulation of the other Party as equivalent to its own, it shall, on request of the other Party, explain the reasons for its decision.

5. In implementing paragraph 8 of Article 2 of the TBT Agreement, where a Party does not specify technical regulations based on product requirements in terms of performance rather than design or descriptive characteristics, the Party shall endeavour to, on request of the other Party, provide its reasons for doing so.

6. Except where urgent problems of safety, health, environmental protection, or national security arise or threaten to arise, each Party shall allow a reasonable interval between the publication of technical regulations and their entry into force in order to provide sufficient time for producers in an exporting Party to adapt their products or methods of production to the requirements of an importing Party. For the purposes of this paragraph, the Parties understand that “reasonable interval” shall mean normally a period of not less than six months, except where this would be ineffective in fulfilling the legitimate objectives pursued by the technical regulation.

7. On request of a Party that has an interest in developing a technical regulation similar to a technical regulation of the other Party, the requested Party shall endeavour to provide, to the extent practicable, relevant information, including studies or documents, except for confidential information, on which it has relied in its development.

8. Each Party shall uniformly and consistently apply its technical regulations that are prepared and adopted by its central government bodies to its territory.

Article 7.7
Conformity Assessment Procedures

1. Further to paragraph 4 of Article 5 of the TBT Agreement, each Party shall ensure that central government bodies use relevant international standards or their relevant parts as a basis for their conformity assessment procedures, except where, as duly explained upon request, such international standards or relevant parts are inappropriate for the Party concerned.

2. Each Party recognises the importance of accepting the results of conformity assessment procedures conducted in the other Party with a view to increasing efficiency, avoiding duplication, and ensuring cost effectiveness of conformity assessments.

3. Each Party shall ensure, wherever possible, that results of conformity assessment procedures in the other Party are accepted, even when those procedures differ from its own, unless those procedures do not

offer an assurance of conformity with applicable technical regulations or standards equivalent to its own procedures.

4. A Party shall, on request of the other Party, explain its reasons for not accepting the results of a conformity assessment procedure conducted in the other Party.

5. Each Party recognises that, depending on the situation of the Party and the specific sectors involved, a broad range of mechanisms exists to facilitate the acceptance of the results of conformity assessment procedures conducted in the other Party. Such mechanisms may include:

   (a) mutual recognition agreements for the results of conformity assessment procedures conducted by bodies in the other Party;

   (b) cooperative voluntary arrangements between accreditation bodies or those between conformity assessment bodies in the other Party;

   (c) the use of accreditation to qualify conformity assessment bodies, including through relevant multilateral agreements or arrangements, to recognise the accreditation granted by the other Party;

   (d) the designation of conformity assessment bodies in the other Party;

   (e) unilateral recognition by a Party of results of conformity assessment procedures conducted in the other Party; and

   (f) a manufacturer’s or supplier’s declaration of conformity.

6. Upon reasonable request by a Party, the other Party shall exchange information or share experiences on the mechanisms referred to in paragraph 5, including their development and application, with a view to facilitating the acceptance of the results of conformity assessment procedures.

7. The Parties recognise the important role that relevant international, including regional, organisations can play in cooperation in the area of conformity assessment. In this regard, each Party shall take into consideration the participation status or membership in such organisations of relevant bodies in the Parties in facilitating this cooperation.

8. The Parties agree to encourage cooperation between their relevant conformity assessment bodies in working closer with a view to facilitating the acceptance of conformity assessment results between the Parties.

9. Each Party shall, wherever possible, permit the participation of conformity assessment bodies of the other Party in its conformity assessment procedures under conditions no less favourable than those accorded to conformity assessment bodies in that Party.

10. Where a Party permits participation of its conformity assessment bodies and does not permit participation of conformity assessment bodies of the other Party in its conformity assessment procedures, it shall, on request of that other Party, explain the reason for its decision to refuse.

Article 7.8
Cooperation

1. The Parties shall strengthen their cooperation between their respective organisations responsible for standards, technical regulations and conformity assessment procedures, consistent with the objectives of this Chapter.

2. Each Party shall, on request of the other Party, give positive consideration to proposals for cooperation on matters of mutual interest on standards, technical regulations and conformity assessment procedures.

3. The cooperation referred to in paragraph 2 shall be on mutually determined terms and conditions, may include:

   (a) advice, technical assistance or capacity building relating to the development and application of standards, technical regulations and conformity assessment procedures;

   (b) cooperation between conformity assessment bodies, both governmental and non-governmental, in the Parties, on matters of mutual interest;

   (c) cooperation in areas of mutual interest in the work of relevant regional and international bodies relating to the development and application of standards and conformity assessment procedures, such as enhancing participation in the frameworks for mutual recognition developed by relevant regional and international bodies;

   (d) enhancing cooperation in the development and improvement of standards, technical regulations, and conformity assessment procedures; and

   (e) strengthening communication and coordination in the WTO TBT Committee and other relevant international or regional fora.

4. Each Party shall, on request of the other Party, give consideration to sector-specific proposals for mutual benefit for cooperation under this Chapter.

2. The Parties shall enter into technical discussions within 60 days of the written request referred to in paragraph 1, unless otherwise mutually determined, with a view to reaching a mutually satisfactory solution. Technical discussions may be conducted through any means mutually agreed by the Parties.

3. Requests for technical discussions shall be made through the Parties' respective contact points designated pursuant to Article 7.14 (Contact Points).

4. This Article is without prejudice to the rights and obligations of the Parties under Chapter 19 (Dispute Settlement).

Article 7.10
Transparency

In this respect, the Parties shall take into account relevant decisions and recommendations in the Decisions and Recommendations adopted by the WTO Committee on Technical Barriers to Trade since 1 January 1995 (G/TBT/1/Rev.13), as may be revised, issued by the WTO TBT Committee.

2. Upon written request, a Party shall provide to the other Party, if already available, the full text or summary of its notified technical regulations and conformity assessment procedures in the English language. If unavailable, the Party shall provide to the other Party a summary stating the requirements of the notified technical regulations and conformity assessment procedures in the English language, within a reasonable period of time agreed by the Parties and, if possible, within 30 days after the date of receipt of the written request. The Party writing the summary shall determine the contents of the summary.

3. Each Party shall endeavour to normally allow 60 days from the date of notification to the WTO in accordance with paragraph 9 of Article 2 and paragraph 6 of Article 5 of the TBT Agreement for the other Party to

provide comments in writing, except where urgent problems of safety, health, environmental protection, or national security arise, or threaten to arise. Each Party shall take the comments of the other Party into account and shall endeavour to provide responses to those comments upon request.

4. Each Party shall allow persons of the other Party to participate in consultation procedures that are available to the general public for the development of technical regulations, national standards and conformity assessment procedures by the Party, subject to its laws, regulations and procedures, on terms no less favourable than those accorded to its own persons.

5. The Parties shall ensure that all new final technical regulations and conformity assessment procedures and final amendments to existing technical regulations and conformity assessment procedures are publicly available.

6. Unless otherwise provided in this Chapter, any information or explanation requested by a Party pursuant to this Chapter shall be provided by the requested Party, electronically and in the English language, within a reasonable period of time agreed by the Parties and, if possible, within 60 days.

Article 7.11

(a) the importing Party shall accept that labelling, including supplementary labelling or corrections to labelling, take place in the territory of the importing Party in accordance with its relevant laws, regulations, and customs procedures, as an alternative to labelling in the exporting Party, unless that labelling is necessary in view of the legitimate objectives referred to in Article 2.2 of the TBT Agreement;

(b) the importing Party shall, unless it considers that legitimate objectives under the TBT Agreement are compromised as a result, endeavour to accept supplementary, non-permanent, or detachable labels, or marking or labelling in the accompanying documentation rather than physically attached to the product; and

(c) provided that it is not misleading, contradictory, inconsistent, or confusing, or that the importing Party's legitimate objectives are not compromised, the importing Party shall permit the following in relation to the information required in the importing Party:

(i) information in other languages in addition to the language required in the importing Party;

(ii) internationally accepted nomenclatures, pictograms, symbols, or graphics in addition to those required in the importing Party; and

Party of that contact point or contact points and relevant details, including an email address. Each Party shall promptly notify the other Party of any change to those contact details.

2. Each Party shall ensure that its contact point or contact points facilitate the exchange of information between the Parties on standards, technical regulations, and conformity assessment procedures, in response to all reasonable requests for such information from the other Party.

(c) such an agreement between the Parties has been reached.

2. In achieving a compensatory adjustment, the Parties shall endeavour to maintain a general level of mutually advantageous commitment that is no less favourable to trade than provided for in the Schedules in Annex 8H (Schedule of Specific Commitments - India) or Annex 8I (Schedule of Non-Conforming Measures - New Zealand) prior to such negotiations.

3. If agreement under subparagraph 1(c) is not reached between the modifying Party and the affected Party within three months of the commencement of the process under subparagraph 1(a), the modifying Party may refer the matter to a panel in accordance with the procedures set out in Chapter 19 (Dispute Settlement) or, where agreed between the Parties, to an alternative arbitration procedure. The modifying Party may modify or withdraw a commitment once it has made the compensatory adjustments in conformity with the findings of the panel.

4. If the modifying Party implements its proposed modification or withdrawal and does not comply with the findings of the panel, the affected Party may modify or withdraw substantially equivalent benefits in conformity with the findings of the panel.

Article 8.12
Transparency

1. The Parties recognise that transparent measures governing trade in services are important in facilitating the ability of service suppliers to gain access to, and operate in, each other's markets. Each Party shall promote regulatory transparency in trade in services.

2. Each Party shall:

   (a) publish promptly and, except in emergency situations, at the latest by the time of their entry into force, all relevant measures of general application affecting trade in services and all international agreements pertaining to or affecting trade in services to which the Party is a signatory; and

   (b) to the extent practicable, make the measures and international agreements referred to in subparagraph (a) publicly available on the internet and, to the extent provided under its legal framework, in the English language.

3. Where publication referred to in paragraph 2 is not practicable, such information[7] shall be made otherwise publicly available.

4. To the extent provided for under its domestic legal framework, each Party shall endeavour to provide a reasonable opportunity for comments by interested persons of the other Party on measures referred to in subparagraph 2(a) before adoption.

5. Each Party shall respond promptly to any request by the other Party for specific information on:

[7] For greater certainty, such information may be published in each Party's chosen language.

(a) any measures or international agreements referred to in subparagraph 2(a); and

(b) any new, or any changes to existing, laws, regulations or administrative guidelines which significantly affect trade in services.

Article 8.13
Domestic Regulation

1. Each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective, and impartial manner.

2. Each Party shall maintain or institute as soon as practicable judicial, arbitral, or administrative tribunals or procedures which provide, on request of an affected service supplier, for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

3. Nothing in paragraph 2 shall be construed to require a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.

4. With a view to ensuring that measures relating to qualification requirements and procedures, technical standards, and licensing requirements and procedures, do not constitute unnecessary barriers to trade in services, the Parties shall jointly review the result of the WTO negotiations on disciplines on such measures, pursuant to Article VI.4 of GATS and shall amend this Article, as appropriate, after consultations between the Parties to bring the results of those negotiations into effect under this Chapter. Such disciplines shall aim to ensure that such requirements, *inter alia*:

   (a) are based on objective and transparent criteria, such as competence and the ability to supply the service;

   (b) are not more burdensome than necessary to ensure the quality of the service; and

   (c) in the case of licensing procedures, are not in themselves a restriction on the supply of the service.

5. In sectors in which a Party has undertaken commitments, pending the entry into force of disciplines in these sectors pursuant to paragraph 4, that Party shall not apply licensing and qualification requirements and

technical standards that nullify or impair such commitments in a manner which:

(a) does not comply with the criteria outlined in subparagraphs 4(a) through 4(c); and

(b) could not reasonably have been expected of that Party at the time the commitments in those sectors were made.

6. In determining whether a Party is in conformity with its obligations under subparagraph 5(a), international standards of relevant international organisations[8] applied by that Party shall be taken into account.

7. Where a Party requires authorisation for the supply of a service, that Party shall ensure that its competent authorities:

(a) ensure that any authorisation fees charged for the completion of relevant application procedures are reasonable, transparent, and do not in themselves restrict the supply of a service. For the purposes of this subparagraph, authorisation fees do not include fees for the use of natural resources, payment for auction, tendering, or other non-discriminatory means of awarding concessions, or mandated contributions to universal services provision;

(b) within a reasonable period of time after the submission of an application considered complete under its laws and regulations, inform the applicant of the decision concerning the application;

(c) to the extent practicable, establish an indicative time frame for processing of an application;

(d) on request of the applicant, provide, without undue delay, information concerning the status of the application;

(e) if the competent authorities consider an application incomplete for processing under the Party's laws and regulations, inform the applicant that the application is incomplete within a reasonable period of time, and on request of the applicant, identify, where practicable, all the additional information that is required to complete the application, and provide the opportunity to remedy deficiencies within a reasonable time frame;

(f) if an application is terminated or denied, to the extent possible and without undue delay, inform the applicant in writing of the

reasons for such action. The applicant will have the possibility of resubmitting, at its discretion, a new application;

(g) to the extent permissible under its laws and regulations, do not require physical presence in the territory of a Party for the submission of an application for a licence or qualification;

(h) endeavour to accept applications in electronic format under the equivalent conditions of authenticity as paper submissions, in accordance with its laws and regulations; and

(i) where they deem appropriate, accept copies of documents authenticated in accordance with its laws and regulations, in place of original documents.

8. Each Party shall provide adequate procedures to verify the competence of professionals of the other Party. If licensing or qualification requirements include the completion of an examination, each Party shall, to the extent practicable, ensure that:

(a) the examination is scheduled at reasonable intervals; and

(b) a reasonable period of time is provided to enable interested persons to submit an application.

9. Each Party shall, to the extent practicable, avoid requiring an applicant to approach more than one competent authority for each application for authorisation. If a service is within the jurisdiction of multiple competent authorities, multiple applications for authorisation may be required.

10. If a Party requires authorisation for the supply of a service, it shall ensure that its competent authorities to the extent practicable permit submission of an application at any time throughout the year.[9] If a specific time period for applying exists, the Party shall ensure that the competent authorities allow a reasonable period for the submission of an application.

11. If a Party adopts or maintains measures relating to the authorisation of the supply of a service, the Party shall ensure that its competent authorities reach and administer their decisions in a manner independent from any supplier of the service for which authorisation is required.[10]

12. Paragraphs 1 through 10 shall not apply to:

(a) a sector which remains non-committed by reason of a Party's Schedule in Annex 8H (Schedule of Specific Commitments -

[9] Competent authorities are not required to start considering applications outside of their official working hours and working days.

India) or Annex 8I (Schedule of Non-Conforming Measures - New Zealand); and

(b) a measure to the extent that such measure is not subject to Article 8.4 (National Treatment) or Article 8.5 (Market Access) by reason of a Party's commitments made in accordance with either Article 8.7 (Schedule of Specific Commitments) or Article 8.8 (Schedule of Non-Conforming Measures).

Article 8.14
Recognition

1. For the purposes of the fulfilment, in whole or in part, of its standards or criteria for the authorisation, licensing, or certification of service suppliers, and subject to the requirements of paragraph 4, a Party may recognise the education or experience obtained, requirements met, or licences or certifications granted in a non-Party. Such recognition, which may be achieved through harmonisation or otherwise, may be based upon an agreement or arrangement with the non-Party concerned, or may be accorded autonomously.

2. If a Party recognises, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licences or certifications granted, in the territory of a non-Party, nothing in Article 8.6 (Most-Favoured-Nation Treatment) shall be construed to require the Party to accord recognition to the education or experience obtained, requirements met, or licences or certifications granted, in the territory of the other Party.

3. A Party that is party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford adequate opportunity for the other Party, upon request, to negotiate its accession to such an agreement or arrangement, or to negotiate comparable ones with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that education, experience, licences, or certifications obtained or requirements met in that other Party's territory should be recognised.

4. A Party shall not accord recognition in a manner which would constitute a means of discrimination between the other Party and non-Parties in the application of its standards or criteria for the authorisation, licensing, or certification of service suppliers, or a disguised restriction on trade in services.

5. Where appropriate, recognition should be based on multilaterally agreed criteria. In appropriate cases, Parties shall work in cooperation with relevant inter-governmental and non-governmental organisations towards the establishment and adoption of common international

standards and criteria for recognition and common international standards for the practice of relevant services trades and professions.

6. As set out in Annex 8D (Professional Services), each Party shall endeavour to facilitate trade in professional services, including through encouraging relevant bodies in its territory to enter into negotiations for agreements or arrangements on recognition.

Article 8.15
Monopolies and Exclusive Service Suppliers

1. Each Party shall ensure that any monopoly supplier of a service in its territory does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with that Party's obligations under Article 8.4 (National Treatment) and Article 8.5 (Market Access).

2. Where a Party's monopoly supplier of a service competes, either directly or through an affiliated company, in the supply of a service outside the scope of its monopoly rights and which is subject to that Party's commitments, that Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.

3. If a Party has a reason to believe that a monopoly supplier of a service of the other Party is acting in a manner inconsistent with paragraphs 1 or 2, it may request that Party establishing, maintaining, or authorising such a supplier to provide specific information concerning the relevant operations.

4. This Article shall also apply to cases of exclusive service suppliers, where a Party, formally or in effect:

   (a) authorises or establishes a small number of service suppliers; and

   (b) substantially prevents competition among those suppliers in its territory.

Article 8.16
Disclosure of Confidential Information

Nothing in this Chapter shall be construed as requiring a Party to provide to the other Party confidential information the disclosure of which would impede law enforcement or otherwise be contrary to the public interest or which would prejudice the legitimate commercial interests of particular juridical persons, public or private.

Article 8.17
Business Practices

1. The Parties recognise that certain business practices of service suppliers, other than those falling under Article 8.15 (Monopolies and Exclusive Service Suppliers), may restrain competition and thereby restrict trade in services.

2. Each Party shall, on request of the other Party, enter into consultations with a view to eliminating practices referred to in paragraph 1. The requested Party shall accord full and sympathetic consideration to such a request and shall cooperate through the supply of publicly available non-confidential information of relevance to the matter in question. The requested Party may also provide other information available to the requesting Party, subject to its laws and regulations and to the conclusion of a satisfactory agreement concerning the safeguarding of its confidentiality by the requesting Party.

Article 8.18
Payments and Transfers

1. Except under the circumstances envisaged in Article 18.4 (Measures to Safeguard the Balance of Payments), a Party shall not apply restrictions on international transfers or payments for current transactions relating to its commitments.

2. Nothing in this Chapter shall affect the rights and obligations of a Party as a member of the International Monetary Fund ("IMF") under the *Articles of Agreement of the International Monetary Fund,* adopted at the United Nations Monetary and Financial Conference (Bretton Woods, New Hampshire) on July 22, 1944 ("IMF Articles of Agreement"), as may be amended, including the use of exchange actions which are in conformity with the IMF Articles of Agreement, as may be amended, provided that the Party shall not impose restrictions on any capital transaction inconsistently with its commitments under this Chapter regarding such transactions, except under Article 18.4 (Measures to Safeguard the Balance of Payments) or on request of the IMF.

Article 8.19
Denial of Benefits

1. A Party may deny the benefits of this Chapter:

   (a) to the supply of any service, if it establishes that the service is supplied from or in the territory of a non-Party;

   (b) to a service supplier that is a juridical person, if it establishes that it is not a service supplier of the other Party; and

   (c) in the case of the supply of a maritime transport service, if it establishes that the service is supplied:

      (i) by a vessel registered under the laws and regulations of a non-Party; and

      (ii) by a person of a non-Party which operates or uses the vessel in whole or in part.

2. A Party may deny the benefit of this Chapter to a service supplier of the other Party, if the service supplier is a juridical person owned or controlled by persons of a non-Party, and the denying Party adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the juridical person or that would be violated or circumvented if the benefits of this Chapter were accorded to the juridical person.

Article 8.20
Safeguard Measures

1. The Parties note the multilateral negotiations pursuant to Article X of GATS on the question of emergency safeguard measures based on the principle of non-discrimination. The Parties shall review the incorporation of safeguard measures pending any further developments in the multilateral fora pursuant to Article X of GATS.

2. In the event that a Party encounters difficulties in the implementation of its commitments under this Chapter, that Party may request consultations with the other Party to address such difficulties.

Article 8.21
Subsidies

1. Notwithstanding subparagraph 3(b) of Article 8.2 (Scope), the Parties shall review the issue of disciplines on subsidies related to trade in services in light of any disciplines agreed under Article XV of GATS with a view to their incorporation into this Chapter.

2. A Party which considers that it is adversely affected by a subsidy of the other Party related to trade in services may request consultations with the other Party on such matters. The requested Party shall accord sympathetic consideration to such a request.

3. No Party shall have recourse to dispute settlement under Chapter 19 (Dispute Settlement) for any request made or consultations held under this Article, or any other dispute arising under this Article.

Article 8.22
Cooperation

1. The Parties shall strengthen cooperation efforts in sectors, including sectors which are not covered by current cooperation arrangements. The Parties shall discuss and agree on the sectors for cooperation and develop cooperation programmes in these sectors in order to improve their domestic services capacity and their efficiency and competitiveness.

2. Recognising that trade in audiovisual services, including film and television co-productions, can significantly contribute to the development of the audiovisual industry and to the intensification of cultural and economic exchange between them, the Parties shall endeavour to enhance cooperation in the sector.

Article 8.23
Committee on Trade in Services

1. The Parties hereby establish a Committee on Trade in Services ("Services Committee") composed of representatives of each Party.

2. Unless otherwise agreed by the Parties, the Services Committee shall meet once a year, or without undue delay at the request of either Party. The meetings shall take place in India or in New Zealand alternately or by any other appropriate means of communication, as agreed by the representatives of the Parties.

   (a) monitor and review the implementation and operation of this Agreement;

   (b) consider and discuss technical issues arising from the implementation of this Agreement;

   (c) adopt decisions or make recommendations;

(d) conduct the preparatory work necessary to support the functions of the Joint Commission, including when the Joint Commission adopts decisions or recommendations; and

4. The Services Committee may decide on its own rules of procedure, in the absence of which the Rules of Procedure of the Joint Commission shall apply *mutatis mutandis*.

5. The Services Committee shall report to the Joint Commission on the results and conclusions from each of its meetings.

Article 8.24
Contact Points

Each Party shall, within 60 days of entry into force of this Agreement, designate an official contact point to receive and facilitate official communications between the Parties on any matter relating to this Chapter. Each Party shall promptly notify the other Party, in writing, of any change to its contact point. On request of the other Party, the contact point shall:

(b) assist as necessary in facilitating communications with the requesting Party with respect to that matter.

Based on this observation, and on estimated nominal GDP growth rate of India over the next 15 years, in line with the past growth rates, New Zealand aims to strengthen its FDI footprint in India, leveraging a full implementation of this Agreement by the Parties.

2. The Investment Committee shall review progress towards the achievement of the objective to increase investment from New Zealand into India by US Dollars 20 billion (hereinafter “investment objective”) and the commitment undertaken by New Zealand as set out in Article 9.2 (Investment Promotion).

3. The first review by the Investment Committee shall be held no later than five years after the date of entry into force of this Agreement. The second review by the Investment Committee shall be held no later than 10 years after the date of entry into force of this Agreement. The final review by the Investment Committee shall take place 15 years after the date of entry into force of this Agreement. The Parties may mutually agree on a different timeline or additional reviews.

4. For each such review under paragraph 3, the Investment Committee shall review the progress towards achievement of the investment objective and the commitment undertaken by New Zealand as set out Article 9.2 (Investment Promotion) and record its findings in a report titled “Investment Report”, including recording any unforeseen circumstances which have had a material bearing on the progress.

5. In case of occurrence of any unforeseen circumstances including global pandemic, war, geopolitical disruptions, financial crisis or sustained economic underperformance, or other similar factors beyond New Zealand’s control which have had a material bearing on the progress to achieve the objective, the Parties may adjust the investment objective by mutual agreement of the Parties, accordingly through an amendment of Article 9.2 (Investment Promotion).

6. Should the investment objective not be achieved by the final review, and India considers that New Zealand has not fulfilled its commitment set out in Article 9.2 (Investment Promotion), India may request consultations by the Investment Committee. The Investment Committee shall be convened within 30 days of receipt of India's written request for such consultations.

7. The scope of the consultations shall be limited to determining whether New Zealand has fulfilled its commitment as set out in Article 9.2 (Investment Promotion), and where applicable, to finding a mutually agreed solution between the Parties.

9. If the Investment Committee determines that the commitment set out in Article 9.2 (Investment Promotion) has not been fulfilled, the Investment Committee shall make recommendations to the Joint Commission.

10. If after the 8-month period from the request of consultations by India, the matter remains unresolved, then the Investment Committee shall refer the matter to the Joint Commission for consultations, with its recommendations.

11. The Joint Commission shall begin consultations upon the receipt of the referral from the Investment Committee under paragraph 9 or paragraph 10, with a view to reaching a mutually agreed solution. If the Joint Commission cannot resolve the matter within six months of the date of receipt of the reference from the Investment Committee, the same shall be referred to the representatives of New Zealand and India at the level of Ministers. Such representatives shall be identified in writing.

12. Such representatives of New Zealand and India shall begin consultations within 30 days of the receipt of the referral from the Joint Commission. 2. India shall, no later than 30 days before the date on which the remedial measures are due to take effect, notify New Zealand of the remedial measures it intends to take, the grounds for such remedial measures and when they will commence.

3. The Parties agree that the remedial measures are intended to be temporary and shall be terminated once the investment objective set out in Article 9.2 (Investment Promotion) has been achieved.

4. New Zealand may request consultations under the Joint Commission if the remedial measures have continued beyond five years. Such a request shall include the New Zealand's grounds for the request for modification or termination of remedial measures.

5. The Joint Commission shall begin consultations within 30 days of the receipt of the request from New Zealand pursuant to paragraph 4. The Joint Commission will assess the grounds for modification or termination in New Zealand's request, and accordingly, aim to facilitate a mutually agreed solution between the Parties. If the Joint Commission cannot resolve the matter within six months, the same shall be referred to the representatives of New Zealand and India at the level of Ministers.

6. Upon receipt of reference from the Joint Commission pursuant to paragraph 5, the representatives of the Parties at the level of Ministers, will aim to facilitate a mutually agreed solution. 7. If the Joint Commission or the representatives at the level of Ministers recommend modification or termination of the remedial measures under paragraphs 5 through 6, the measures necessary to modify or terminate shall be taken within an agreed time period. Unless such remedial measures are terminated, the Joint Commission shall thereafter examine the continuation or modification of the remedial measures every three years following the same procedure, until the remedial measures have ceased to apply.

Each Party shall provide that the owner of a registered trade mark has the exclusive right to prevent third parties that do not have the owner's consent from using in the course of trade identical or similar signs for goods or services that are related to those goods or services in respect of which the owner's trade mark is registered, where such use would result in a likelihood of confusion. In the case of the use of an identical sign for identical goods or services, a likelihood of confusion shall be presumed.

[8] For greater certainty, for the purpose of this Article, “filed” does not include notional applications or applications deemed to have been filed in a Party.

[9] A Party may provide that such amendments do not go beyond the scope of the disclosure of the invention, as of the filing date.

Section G: Industrial Designs

Article 11.30

2. A Party may enable such an application to be made in respect of goods which involve other infringements of intellectual property rights, provided that the requirements of Part III, Section 4 of the TRIPS Agreement are met. A Party may also provide for corresponding procedures concerning the suspension by the customs authorities of the release of infringing goods destined for exportation from their territory in accordance with its law.

CHAPTER 12

TRADE AND SUSTAINABLE DEVELOPMENT

Article 12.1
Scope, Context and Objectives

1. Recalling the *Rio Declaration on Environment and Development and the Agenda 21* adopted by the United Nations Conference on Environment and Development in Rio de Janeiro on 14 June 1992, the *Johannesburg Declaration on Sustainable Development and its Plan of Implementation* adopted in Johannesburg on 4 September 2002, the *International Labour Organization* ("ILO") *Declaration on Fundamental Principles and Rights at Work* adopted by the International Labour Conference at its 86th Session in Geneva on 18 June 1998, as amended in 2022 ("ILO Declaration on Fundamental Principles and Rights at Work"), the *ILO Declaration on Social Justice for a Fair Globalization* adopted by the International Labour Conference at its 97th Session in Geneva on 10 June 2008, as amended in 2022 ("ILO Declaration on Social Justice for a Fair Globalization"), the *Outcome Document of the UN Conference on Sustainable Development of 2012 entitled "The Future We Want" endorsed by the UN General Assembly Resolution 66/288* adopted on 27 July 2012 ("the RIO+20 Outcome Document "The Future We Want"), the *UN 2030 Agenda for Sustainable Development*, adopted by the UN General Assembly Resolution 70/1 on 25 September 2015 and its Sustainable Development Goals, and the multilateral environmental agreements to which the Parties are party, the Parties affirm their commitment to pursue the objective of sustainable development, whose pillars, economic development, social development and environmental protection are mutually supportive, interdependent and essential requirements of sustainable development.

2. The Parties agree to promote international trade in such a way as to contribute towards sustainable development for eradicating poverty and hunger, including towards broad-based, sustained and inclusive economic growth, social development, high levels of environmental protection and progress towards long-term strategies for transition, and to work to integrate and reflect this objective in their trade relationship.

3. For greater certainty, the Parties emphasise that it is their aim to strengthen their trade relations and cooperation in ways that promote sustainable development, and that this Chapter does not oblige the Parties to harmonise their environmental and social standards of protection.

4. This Chapter embodies a cooperative approach based on common values and interests, taking into account the differences in the Parties' respective levels of development, priorities and circumstances.

5. For the purposes of this Chapter, **"laws and regulations"** means:

   (a) for India, an Act of the Parliament of India or delegated legislation framed pursuant to an Act of the Parliament of India, which is enforceable by action of the Central or Union level of Government; and

   (b) for New Zealand, an Act of the Parliament of New Zealand or a regulation made under an Act of the Parliament of New Zealand by the Governor-General in Council, which is enforceable by action of the central level of government.

Article 12.2
Right to Regulate and Upholding Levels of Protection

1. Recognising the right of each Party, in a manner consistent with the provisions of this Chapter, to set its domestic sustainable development policies and priorities, to establish its own levels of environmental, and labour protection, and to adopt or modify accordingly its relevant laws and policies, each Party shall seek to ensure that its laws, policies and practices provide for and encourage achieving sustainable development as referred to in Article 12.1 (Scope, Context and Objectives).

2. The Parties are committed not to encourage trade by derogating from or, through a sustained or recurring course of action or inaction, failing to effectively enforce their respective environmental and labour laws in a manner affecting trade between the Parties.

3. The Parties stress that environmental and labour measures shall not be applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between the Parties or a disguised restriction on trade.

4. The Parties recognise the value of international agreements on the environment and on labour as means to address global and regional environmental and social challenges. The Parties recall that the ILO Declaration on Social Justice for a Fair Globalization states that the violation of fundamental principles and rights at work cannot be invoked or otherwise used as a legitimate comparative advantage and that labour standards should not be used for protectionist trade purposes. In this context, the Parties note that their comparative advantage should in no way be called into question. The Parties also stress that neither environmental issues nor labour standards shall be used for protectionist trade purposes.

Article 12.3
Trade and Labour

1. The Parties, in accordance with their obligations as members of the ILO and the ILO Declaration on Fundamental Principles and Rights at Work, commit to respect, promote and realise, in good faith, the fundamental principles and rights at work which are the subject of the fundamental ILO Conventions.

2. Each Party affirms their commitment to effectively implement in their laws and practices the ILO Conventions which that Party has ratified. Each Party will make efforts towards ratifying the fundamental ILO Conventions in a promotional and flexible manner without time limits and consistent with the ILO Declaration on Social Justice for a Fair Globalization.

3. In view of the objectives set out in Article 12.1 (Scope, Context and Objectives), the Parties agree to enhance their cooperation by exchanging information, discussing best practices and sharing implementation experiences in areas of mutual interest, such as:

   (a) best practices relating to corporate social responsibility including encouraging businesses to adopt responsible business conduct policies;

   (b) relevant aspects of the ILO Decent Work Agenda, such as labour statistics and labour market developments;

   (c) sharing expertise, information and best practices in respect of identifying and addressing skill shortages and gaps;

   (d) human capital development and the enhancement of employability, including through apprenticeship programmes, lifelong learning, continuous education, training and the development and upgrading of skills;

   (e) exploring opportunities for skilling, upskilling and re-skilling to facilitate a just transition and decent work in accordance with the *ILO Guidelines for a Just Transition Towards Environmentally Sustainable Economies and Societies for All*, published by the ILO at Geneva on 2 February 2016 ("ILO Guidelines for a Just Transition") and the Decent Work Agenda; and

   (f) promotion of productive, quality employment and green entrepreneurship linked to sustainable growth, support for workers as part of a just transition in line with the ILO Guidelines for a Just Transition, and skill development for jobs in emerging industries, including environmental industries.

Article 12.4
Trade and Gender Equality

1. The Parties recognise the importance of gender equality and the empowerment of all women in advancing sustainable and inclusive economic growth and development, including through women's participation in international trade.

2. The Parties also recognise that gender-responsive policies and practices are important to advancing gender equality and the empowerment of all women. The Parties recognise the importance of adopting, maintaining and implementing women's economic empowerment and equality laws, regulations, policies and best practices, in line with the Sustainable Development Goal 5 of the UN 2030 Agenda on Sustainable Development. The Parties also recognise the importance of the *Convention on the Elimination of all Forms of Discrimination Against Women* done at New York City on 18 December 1979 and the *Beijing Declaration and Platform for Action, Fourth World Conference on Women* done at Beijing on 15 September 1995.

3. Accordingly, each Party shall endeavour to:

   (a) foster women's entrepreneurship and leadership, including promoting women's access to the benefits and opportunities of this Agreement;

   (b) promote the exchange of information and best practice related to the design, implementation, monitoring, evaluation and strengthening of policies and programmes, aimed at enhancing women's participation in economic activity, including international trade; and

   (c) cooperate to identify and address the barriers faced by women in trade and investment including safety and access to information, networks and finance.

4. The Parties agree to implement the Agreement and the cooperation activities established under this Article in a manner that advances the full, equal and meaningful participation of women in the economy and in a manner that protects and promotes their human rights and economic wellbeing.

Article 12.5
Multilateral Environmental Agreements

1. The Parties recognise the important role multilateral environmental agreements play in protecting the environment, including reducing biodiversity loss and addressing climate change, and the need for

mutual supportiveness between trade and environmental laws and policies.

2. The Parties affirm their adherence to the principles reflected in the international environmental instruments referred to in Article 12.1 (Scope, Context and Objectives).

3. The Parties affirm their commitment to implement the multilateral environmental agreements to which the Parties are a party.

Article 12.6
Trade and Environment

1. The Parties recognise that in accordance with the objective of sustainable development, the Parties shall allow for the optimal use of the world's resources, and will seek to protect and preserve the environment, and to enhance the means for doing so in a manner consistent with their respective needs and concerns at different levels of economic development. The Parties further recognise the importance, and positive role, that the multilateral trading system and the WTO may play in encouraging sustainable use of resources, sustainable ecosystems, sustainability of services and sustainable long-term growth.

2. The Parties also recognise the importance of strengthening policies and defining programmes that encourage sustainable and inclusive growth. The Parties recall that the Rio+20 Outcome Document "The Future We Want" provides sufficient flexibility and policy space for the Parties to make their own choices out of a broad menu of options and define their paths towards sustainable development based on each Party's stage of development, national circumstances and priorities.

3. The Parties also recognise that policy objectives to facilitate the transition to a resource efficient and circular economy includes extending product lifetimes, increasing the proportion of materials and products that are reused and recycled, and reducing waste throughout supply chains.

4. The Parties recognise the importance of conserving, and sustainably using, biological diversity consistent with relevant multilateral environmental agreements to which the Parties are a party, including the *Convention on Biological Diversity*, done at Rio de Janeiro on 5 June 1992 and its Protocols, the *Convention on the Conservation of Migratory Species of Wild Animals*, done at Bonn on 23 June 1979, the *Ramsar Convention on Wetlands*, done at Ramsar on 02 February 1971, and the *Convention on International Trade in Endangered Species of Wild Fauna and Flora*, done at Washington D.C. on 3 March 1973, and the decisions adopted thereunder.

5. The Parties recognise the importance of the conservation and sustainable management of forests for providing environmental functions and economic and social opportunities for present and future generations.

6. Accordingly, the Parties shall endeavour to cooperate in areas of mutual interest, including:

   (a) sharing best practices in promoting integrated and sustainable management of natural resources and ecosystems, including conservation and sustainable use of biodiversity;

   (b) taking appropriate action to conserve biological diversity, including to prevent the spread of invasive alien species;

   (c) supporting cooperation between enterprises in relation to goods, services and technologies that contribute to sustainable development;

1. For the purposes of this Agreement, "direct taxes" comprise all taxes on total income, on total capital or on elements of income or of capital, including taxes on gains from the alienation of property, taxes on estates, inheritances and gifts, and taxes on the total amounts of wages or salaries paid by enterprises, as well as taxes on capital appreciation; and also include the taxes covered under the *Convention between the Government of the Republic of India and the Government of New Zealand for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with respect to Taxes on Income and on Capital*, done at Auckland on 17 October 1986, as amended by any Protocols thereto ("India-New Zealand DTAA").

2. The Parties agree that the interpretation of te Tiriti o Waitangi / the Treaty of Waitangi, including as to the nature of the rights and obligations arising under it, shall not be subject to the dispute settlement provisions of this Agreement. Section C: Administration and Implementation of Tariff-Rate Quotas

1. Each Party shall administer tariff-rate quotas ("TRQs") established under this Agreement in a transparent, objective, non-discriminatory and minimally burdensome manner in accordance with its laws and regulations.

2. The administration of TRQs under this Agreement shall be as conducive to trade as possible.

3. Where this Agreement enters into force during a year, the TRQ quantities for the remainder of that year shall be pro-rated and calculated as a proportion of the annual TRQ quantity.

4. Imports under TRQs established under this Agreement shall be on the basis of an TRQ Authorisation, issued on demand, conditional only on presentation by the importer of a valid export certificate. The TRQ Authorisation shall be issued without delay as soon as possible after presentation of the export certificate and shall be valid until the end of the quota year.

5. Quota management arrangements:

   (a) New Zealand shall allocate TRQs to exporters or producers by issuing export certificates with clear details of the item, permitted quantity and the details of importer within the overall quota agreed under TRQ; and

   (b) the competent authority for export certificates in New Zealand shall provide the competent authority of India, through electronic means to enable a streamlined process, information on allocations to exporters and designated importers in an agreed format, quarterly or as otherwise agreed.

6. Imports under TRQs established under this Agreement shall not be subject to any additional requirements, conditions or restrictions other than those set out above, unless the Parties agree otherwise.

7. If a Party considers the need to discuss a matter related to the operation of a TRQ, it may make a written request for discussions. The other Party shall respond within 30 days of the date of such a request. India may also raise concerns if it is of the view that its importers, SMEs in particular, have not been able to receive quota in a manner consistent with paragraph 1.

8. The Parties shall enter into discussions within 60 days of a request under paragraph 7, unless the Parties agree otherwise, with a view to reaching a mutually satisfactory solution. Requests for discussions shall be made through the Parties' respective contact points designated pursuant to Article 2.18 (Contact Points).

The following staging category shall apply to the elimination of customs duties by New Zealand pursuant to Article 2.3 (Elimination or Reduction of Customs Duties): customs duties on originating goods provided for in the items in staging category ‘EIF’ shall be eliminated on the date of entry into force of this Agreement.

ANNEX 2B

IMPLEMENTATION AND REVIEW OF ECONOMIC COOPERATION ACTION PLANS AND RELATED TARIFF RATE QUOTAS

1. The Parties acknowledge and appreciate the collaborative efforts made by each other to enhance economic cooperation and foster a strong partnership between their economies.

2. The Parties take note of Chapter 14 (Economic Cooperation and Technical Assistance), particularly Article 14.9 (Action Plans) and the action plans therein agreed between the Parties, particularly for Apples (HS 08081000), Honey (HS 0409000) and Kiwifruit (HS 08105000) as listed in Annex 14A (Agricultural Cooperation and Technical Assistance Thematic Areas). These action plans are valid for a period of five years from the date of their commencement and thereafter may be extended for a specific period on terms mutually decided by the Parties in writing.

3. Further, Parties also note that India has agreed to provide tariff rate quotas ("TRQs") and market access to New Zealand for goods listed in paragraph 2, as specified in Annex 2A (Schedules of Tariff Commitments). The TRQs and the market access offered are subject to New Zealand's actions to fulfil its obligations under the respective action plans within the timelines set out in paragraph 2.

4. For the purposes of operation and implementation of the action plans listed in paragraph 2 and Annex 2A (Schedules of Tariff Commitments), and to realise the shared objectives and commitments therein, New Zealand shall, in accordance with Chapter 14 (Economic Cooperation and Technical Assistance), ensure that resources and support are made available to fulfil its commitments under those action plans. Such resources or support by New Zealand is excluded from investment by New Zealand in accordance with Chapter 9 (Investment Promotion and Cooperation).

5. The Parties shall, through the Joint Agriculture Productivity Council ("JAPC") established pursuant to Article 14.5 (Joint Agriculture Productivity Council) meet at least once every six months after the date of entry into force of this Agreement to review the progress of the action plans listed in paragraph 2.

6. The JAPC shall:

   (a) determine the deliverables of action plans;

   (b) address issues relating to the administration or operation of this Annex;

(c) modify or extend the action plans listed in paragraph 2, if mutually agreed; and

(d) undertake any other task recommended by the Joint Committee.

7. India may request consultations with New Zealand and agree to a mutually satisfactory solution, where New Zealand is unable to fulfil its obligations or commitments as set out in the action plans listed in paragraph 2. For the purposes of consultations, India shall set out the reasons for the request, including identification of the action plan at issue and an indication of a basis for the request, and any other issue of concern.

8. If no mutually agreed solution is reached within 30 days from the date of the request referred to in paragraph 7, either Party may refer the matter to the JAPC, and the JAPC shall meet to consider the matter. If the JAPC does not reach a mutually agreed solution within 60 days of the date of the referral to the JAPC, either Party may refer the matter to the Joint Commission.

9. If the Joint Commission does not reach a mutually agreed solution within 60 days of the referral, either Party may refer the matter for a Ministerial-level discussion for resolution. If no resolution is reached, India may notify New Zealand of its intention to rebalance the concessions offered by it and may suspend the market access referred to in paragraph 3 for the relevant product, as appropriate, in whole or in part. The relevant market access will be reinstated if New Zealand meets the relevant obligation or commitment identified in paragraph 7 or the Parties otherwise reach a mutually agreed solution.

ANNEX 2C

ARRANGEMENT FOR FAST-TRACKING THE IMPORT OF INPUTS FOR USE IN MANUFACTURING OF GOODS MEANT FOR EXPORT

1. The Parties intend to promote India's export potential by leveraging New Zealand's inputs to enhance productivity, promote employment generation, increase global competitiveness and exports, export capacity and capabilities and address India's domestic requirements.

2. To this end, the Parties shall mutually agree to a dedicated fast-track arrangement to support Indian businesses import inputs duty-free from New Zealand, in accordance with India's Foreign Trade Policy ("FTP"), used exclusively for the manufacture of products destined solely for export, thereby safeguarding the interests of the domestic industry. This arrangement shall take into account that it is strictly:

   (a) for inputs used in manufacturing or processing industry for products that are meant exclusively for export and shall not enter for sale, resale or consumption in India's market;

   (b) consistent and in accordance with the provisions of FTP;

   (c) consistent with each Party's right and obligations under the WTO SCM Agreement, including provisions governing export-linked duty-exemption schemes; and

   (d) to safeguard the interests of India's domestic industry or stakeholders.

3. On request by a Party or if mutually agreed, the Parties may decide the operation and modalities of the arrangement referred to in paragraph 2, review the administration, implementation and functioning of the arrangement, and address any associated issues. This arrangement is to be implemented by the date of entry into force of this Agreement.

ANNEX 3A

PRODUCT SPECIFIC RULES OF ORIGIN

Section A: Headnotes to the Annex

1. For the purposes of this Annex:

   (a) **"section"** means a section of the Harmonized System; and

   (b) **"chapter"** means the first two digits of the tariff classification number under the Harmonized System;

   (c) **"heading"** means the first four digits of the tariff classification number under the Harmonized System; and

   (d) **"sub-heading"** means the first six digits of the tariff classification number under the Harmonized System.

2. The product specific rule, or set of product specific rules, that applies to a particular sub-heading is set out immediately adjacent to the sub-heading, heading or chapter, as applicable.

3. A requirement of a change in tariff classification applies only to non-originating materials.

4. If a chapter, heading or sub-heading is excluded as part of a change in tariff classification rule, it means that non-originating materials of that chapter, heading or sub-heading may not be used to meet the change in tariff classification rule. All materials that are excluded must be originating goods.

5. Where a heading or sub-heading is subject to alternative product specific rules, the requirements of this Annex will be considered to be satisfied if a good satisfies one of the alternative rules.

6. If a good is subject to a product specific rule that includes multiple requirements, the requirements of this Annex will be considered to be satisfied for that good only if the good satisfies all applicable requirements.

7. For the purposes of Section B of this Annex:

   (a) **"WO"** means that good must be wholly obtained in the territory of one or both of the Parties within the meaning of Article 3.3 (Wholly Obtained or Produced Goods);

(b) **“CC”** means that all non-originating materials used in the production of the good have undergone a change in tariff classification at the two-digit level;

(c) **“CTH”** means that all non-originating materials used in the production of the good have undergone a change in tariff classification at the four-digit level;

(d) **“CTSH”** means that all non-originating materials used in the production of the good have undergone a change in tariff classification at the six-digit level;

(e) **“QVC (X)”** means the good must satisfy the qualifying value content requirement set out in this Annex, calculated in accordance with Article 3.5 (Calculation of Qualifying Value Content). The percentages of QVC specified in this Annex are based on the Build-Down formula. Where the Build-Up formula is used, the required percentage of QVC is 10 percentage points lower than the percentage specified in this Annex, except that, for goods under HS Chapter 71, the QVC percentage specified in this Annex applies regardless of whether the Build-Down or Build-Up formula is used;

(f) **“melt and pour”** in one or both of the Parties means that the product must have been melted and poured in one or both of the Parties wherein the raw material is first produced in an iron or steel-making furnace in a liquid state, and then poured into its first solid shape; and

(g) a Product Specific Rule for this tariff classification shall be negotiated and agreed by the Technical Subcommittee on Rules of Origin, and adopted into this Annex in accordance with the procedures established under this Agreement, wherein preferential tariff treatment for goods originating in New Zealand is provided under this Agreement. In the interim, a rule of wholly obtained shall apply for these tariff classifications.

   (b) **"Quality Management Systems" ("QMS")** means the management systems and risk management activities intended to ensure the design and manufacture of safe and effective medical devices.

Objectives

2. The National Regulatory Authority[1] of each Party shall:

   (b) seek to collaborate through, and actively participate in, relevant international initiatives, such as those aimed at harmonisation of international standards for medical devices, to improve the alignment of their respective laws, regulations and regulatory activities for medical devices; and

   (c) where not already a member, positively consider working towards membership of international organisations, such as those which are leading the development and harmonisation of international standards for medical devices.

Conformity Assessments

3. To reduce unnecessary regulatory barriers in medical devices, each Party's National Regulatory Authority shall, where provided by the applicant, utilise, as appropriate, reports from regulatory authorities recognised by that Party's National Regulatory Authority as a comparable regulator[2] in relation to the pre-market evaluation of

[1] For the purposes of this Annex "National Regulatory Authority" means for New Zealand, the Ministry of Health, or its successor; and for India, the Central Drugs Standard Control Organisation, or its successor.

[2] Each Party shall determine its comparable regulators and promptly advise this list to the other Party. Any changes are to be notified to the other Party in a timely manner.

medical devices manufactured in the territory of the other Party, subject to its laws, regulations and procedures, as amended from time to time.

4. Each Party shall accept, without prior inspection, the QMS or GCP certificates, or test results, issued by a conformity assessment body approved or recognised by that Party's comparable regulator, for the purpose of approval or registration of medical devices, in accordance with that Party's laws, regulations and procedures, as amended from time to time. However, each Party reserves the right to conduct its own inspection of manufacturing facilities or additional testing of the relevant medical device. The Party's own inspection or additional testing, as the case may be, shall be an exception from normal practice.

Review

5. The Parties shall review the scope and the provisions of this Annex five years after the date of entry into force of the Agreement. Thereafter, subsequent reviews shall take place as mutually agreed by the Parties.

Contact Points

6. For the purposes of this Annex the contact point for any technical question, such as exchange of regulatory information, and technical requirements, shall be:

   (a) For India: Central Drugs Standard Control Organization (CDSCO), Ministry of Health & Family Welfare, Government of India, and Bureau of Indian Standards.

ANNEX 7B

PHARMACEUTICALS

Definitions

1. For the purposes of this Annex:

   (a) **"Good Clinical Practice" ("GCP")** means a process that incorporates established ethical and scientific quality standards for the design, conduct, recording and reporting of clinical research involving human participants.

   (b) **"Good Manufacturing Practice" ("GMP")** means quality measures for both production and quality control and defines general measures to ensure that processes necessary for production and testing are clearly defined, validated, reviewed, and documented, and that the personnel, premises and materials are suitable for the production of human prescription medicines, including vaccines.

Objectives

2. The National Regulatory Authority[1] of each Party shall:

   (a) work together to reduce unnecessary regulatory barriers, where appropriate, in the approval of human prescription medicines;

   (b) seek to collaborate through, and actively participate in, relevant international initiatives, such as those aimed at harmonisation of international standards for pharmaceuticals, to improve the alignment of their respective laws, regulations and regulatory activities for pharmaceuticals; and

   (c) where not already a member, positively consider working towards membership of international organisations, such as those which are leading the development and harmonisation of international standards for pharmaceuticals.

3. To reduce unnecessary regulatory barriers in human prescription medicines, including prescription generic and biosimilar medicines, each Party's National Regulatory Authority shall utilise, where provided by the applicant, as appropriate, reports from regulatory authorities recognised by that Party's National Regulatory Authority as a

comparable regulator[2] in relation to the pre-market evaluation of products manufactured in the territory of the other Party, subject to its laws, regulations, and procedures, as amended from time to time.

4. To reduce unnecessary regulatory barriers in human prescription medicines, including prescription generic and biosimilar medicines, each Party's National Regulatory Authority shall, utilise, as appropriate and where provided by the applicant, GMP inspection reports, or certificates from regulatory authorities recognised by that Party's National Regulatory Authority as a comparable regulator in relation to the quality assessment of manufacturing facilities in the territory of the other Party, subject to its laws, regulations and procedures, as amended from time to time. This may reduce the requirement for, or duration of, in-country inspections in the territory of the other Party.

Non-derogation

5. Nothing in this Annex shall derogate from each Party's rights and obligations under the data protection provisions in the TRIPS Agreement and other international agreements to which the Parties are party.

Recognition of Quality Standards

6. The Parties affirm that human prescription medicines approved in their respective territories shall meet the requirements as prescribed, from time to time, by their National Regulatory Authority. If the relevant quality standards are not included in those requirements, or any pharmacopeia recognised by that Party's National Regulatory Authority, that Party shall give positive consideration to the other Party's recognised or adopted pharmacopeia.

GMP and GCP Inspections

7. Each Party shall normally accept, without the need for prior inspection, the GMP certification of sites in the other Party's territory that manufacture human prescription medicines provided that this certification is issued by that Party's comparable regulator. However, each Party has a right to conduct its own inspection of the manufacturing facilities certified by that comparable regulator. The Party's own inspection shall be an exception from normal practice.

Market Authorisation

8. Market authorisation applications shall be assessed in accordance with the applicable laws, regulations, and procedures of a Party. Parties shall determine market authorisations in a timely, reasonable, objective, transparent, and impartial manner.

---

[2] Each Party shall determine its comparable regulators and promptly advise this list to the other Party. Any changes are to be notified to the other Party in a timely manner.

9. Each Party, subject to the recognition of quality standards and inspections described in Paragraphs 6 (Recognition of Quality Standards) and 7 (GMP and GCP inspections) of this Annex shall consider establishing or maintaining “fast-track” procedures for human prescription medicines, having valid approvals from that Party’s comparable regulators. Any breakthrough or medicine for rare conditions shall be outside the purview of the products considered for fast-track procedure under this paragraph.

Review

10. The Parties shall review the scope and the provisions of this Annex five years after the date of entry into force of the Agreement. Thereafter, subsequent reviews shall take place as mutually agreed by the Parties.

Contact Points

11. For the purposes of this Annex, the contact point for any technical question, such as exchange of regulatory information, and technical requirements, shall be:

    (a) For India: Central Drugs Standard Control Organization (CDSCO), Ministry of Health & Family Welfare, Government of India; and

    (b) For New Zealand: Ministry of Health (Medsafe).

12. Each Party shall promptly notify the other Party of the relevant details of their contact point, including email addresses. Each Party shall promptly notify the other Party of any change to those contact details or the contact point.

Non-Application of Dispute Settlement

13. Neither Party shall have recourse to dispute settlement under Chapter 19 (Dispute Settlement) for any matter arising under this Annex.

ANNEX 7C

WINE, WHISKY AND OTHER DISTILLED SPIRITS

Objective

1. The objective of this Annex is, on the basis of non-discrimination and reciprocity, to facilitate trade in wine produced in each Party's territory.

Scope

2. These provisions apply to wines classified under the headings HS 22.04 and HS 22.02.99[1] of the Harmonized System.

General provisions

3. Each Party shall make information about its laws and regulations concerning wine publicly available.

4. Unless otherwise provided in this Annex, the importation and sale of wine covered by this Annex shall be conducted in compliance with the laws and regulations of the importing Party.

Definitions

5. For the purposes of this Annex:

   (a) **"label"** means any brand, mark, pictorial or other descriptive matter that is written, printed, stencilled, marked, embossed or impressed on or firmly affixed to a container of wine;

   (b) **"variety"** means the cultivar of grape from which a wine is made, as expressed in commonly understood and accepted terms that are permitted for use in the exporting Party;

   (c) **"vintage"** means the year of harvest of the grapes used to make a wine; and

   (d) **"wine"** means a beverage that is produced by the complete or partial alcoholic fermentation exclusively of fresh grapes, grape must or products derived from fresh grapes.[2]

---

[1] For greater certainty, this refers to wines under the heading 22.02.99 with an alcoholic strength by volume not exceeding 0.5 % vol.

[2] For greater certainty, "wine" includes sparkling wine and fortified wine. Sparkling wine includes carbonated sparkling wine.

Product name

6. The importing Party shall permit the use of the term “wine” as the product name.

7. Notwithstanding paragraph 6, where a product contains no more than 0.5% alcohol by volume, a Party may require additional qualifiers or descriptions in order to ensure alignment with its domestic regulatory framework.

Labelling

8. An importing Party may require that all information on a label is clear, accurate, truthful, able to be substantiated and not misleading to the consumer.

9. An importing Party may require that labelling information appears in one of the languages in official use in the territory of that Party as provided for in its law.

10. An importing Party may require that mandatory information be presented in indelible characters and written or set out legibly and clearly, including so that the information contrasts distinctly with the background and surrounding text or graphics.

11. Each Party shall permit mandatory information on a label to be repeated on the container, whether or not in the same form, in accordance with its laws and regulations.

12. An importing Party may prohibit the use of certain label claims where such prohibition serves a legitimate human health and safety objective.

13. Each Party shall permit mandatory information to be displayed on a supplementary label affixed to a container. Supplementary labels may be affixed to a container after importation but prior to the product being offered for sale in the territory of the importing Party, provided that the mandatory information required by the importing Party is fully and accurately displayed.

14. Notwithstanding paragraph 13, a Party may not accept supplementary labels if required by that Party’s laws and regulations.

15. Each Party shall permit net contents information to be stated using the metric system and displayed as either millilitres or litres, including the abbreviations ml, mL, l, and L.

16. Neither Party shall require a supplier to indicate any of the following information on a wine container, label or packaging:

    (a) date of packaging;

    (b) date of bottling;

(c) date of expiration;

(d) date of minimum durability; or

(e) sell by date,

except that a Party may require a supplier to indicate a date of minimum durability or expiration on products that could have a shorter date of minimum durability or expiration than would normally be expected by the consumer because of their packaging or container, for example bag-in-box wines or individual serving size wines; or the addition of perishable ingredients.

17. Notwithstanding paragraph 16, a Party may require the display of a date of minimum durability or a date of expiration on wine that has undergone a dealcoholisation treatment and has an actual alcoholic strength by volume of less than 7% if this information is required to meet a legitimate objective.

18. Each Party shall endeavour to not require a supplier to disclose additives or processing aids permitted by the importing Party on its wine label or container, except to meet a legitimate human health or safety objective.

19. Each Party shall permit the actual alcoholic content by volume indicated on a wine label to be expressed by alcohol by volume (alc/vol), for example 12% alc/vol or alc12%vol, and to be indicated in percentage terms to a maximum of one decimal point, for example 12.1%.

20. An importing Party shall permit the importation and sale of wine that is labelled as a vintage if:

(a) the wine conforms to the exporting Party's laws and regulations in respect of a vintage; and

(b) at least 85% of the wine is derived from grapes of that vintage.

21. An importing Party shall permit the importation and sale of wine that is labelled as being of a single grape variety if:

(a) the wine conforms to the exporting Party's laws and regulations in respect of varietal composition; and

(b) at least 75% of the wine so labelled is obtained from grapes of that variety.

22. An importing Party shall permit the importation and sale of wine that is labelled as being of multiple grape varieties if:

(a) the wine conforms to the exporting Party's laws and regulations in respect of varietal composition;

(b) at least 85% of the wine so labelled is obtained from grapes of those varieties;

(c) each variety listed is in greater proportion in the wine than any variety that is not listed; and

(d) the varieties listed are in descending order of their proportions in the wine and, if required by the importing Party, in characters of the same size.

23. Neither Party shall require a supplier to place a translation of a trade mark or trade name on a wine container, label, or packaging.

24. An importing Party may require the provision of lot identification on wine labels.

25. An importing Party shall prohibit the defacement[3] of lot identification information, unless the relevant authority of the importing Party permits otherwise.

Certification

26. Neither Party shall require imported wine to be certified by an official certification body of the Party in whose territory the wine were produced or by a certification body recognised by the Party in whose territory the wine were produced regarding vintage, varietal and regional claims for wine.

27. Notwithstanding paragraph 26, the importing Party may require that wine be certified if the exporting Party requires such certification due to a reasonable and legitimate concern about a vintage, varietal or regional claim for wine.

Existing stocks and Transitional periods

28. Products that, at the date of entry into force of this Agreement, have been produced or labelled in accordance with the laws and regulations of a Party and Parties' obligations to each other, but in a manner not compliant with this Annex, may be placed on the market in the other Party for sale until stocks are exhausted.

29. If the importing Party introduces a new or amended labelling requirement that affects wine, the importing Party shall provide the exporting Party a reasonable transitional period where the exporting Party’s wine does not have to comply with a new or amended labelling requirement if the exporting Party has:

[3] For greater certainty, the term "defacement" includes the following actions: alter, remove, erase, obliterate, and obscure.

(a) wine which has entered into the importing Party's territory but not yet cleared customs; or

(b) wine that is in transit between the exporting Party and the importing Party.

Wine, Whisky and Other Distilled Spirits Working Group

30. For the purposes of the effective implementation of this Annex, the Wine, Whisky and Other Distilled Spirits Working Group ("Working Group") established under paragraph 3 of Article 17.5 (Committees and Subsidiary Bodies) shall report to the Joint Commission.

31. The Working Group shall be composed of government representatives of each Party, and it shall provide a forum to:

(a) monitor and promote cooperation on the implementation and operation of this Annex;

(b) exchange information, discuss best practices and share implementation experiences;

(c) adopt decisions or make recommendations;

(d) consider and discuss technical issues arising from the implementation of this Agreement, without prejudice to Chapter 19 (Dispute Settlement);

(e) conduct the preparatory work necessary to support the functions of the Joint Commission, including when the Joint Commission adopts decisions or recommendations;

(f) assess each Party's laws, regulations and requirements in respect of oenological practices, with the aim of reaching agreements that provide for each Party's acceptance of the other Party's mechanisms for regulating oenological practices;

(g) discuss and exchange information on acceptable tolerance levels for imported wines in the context of variation of actual alcoholic strength by volume from that indicated on a label, with a view to coming to a mutually satisfactory outcome;

(h) assess and discuss each other's requirements in relation to acidity levels and other limits on imported wine with a view to reaching a mutually satisfactory outcome on what levels are permitted for wines produced in the exporting Party and imported in the other Party;

(i) exchange information and approaches to precise location requirements on wine labels and endeavour to reach a mutually satisfactory outcome as to how precise location requirements apply to wine trade between the Parties;

(j) discuss disciplines on supplementary labelling contained in this Annex at paragraphs 13 and 14 with a view to reach a mutually satisfactory outcome for supplementary labelling of mandatory information described in paragraph 13 within two years of entry into force of this Agreement; and

(c) seeking to ensure the conservation and protection of natural resources and the environment, including a limitation on the availability, number and scope of concessions granted, and the imposition of a moratorium or ban;

paragraph, shall not be regarded as computer and related services in themselves.

11. With respect to New Zealand's obligations imposed by Article 8.5 (Market Access), juridical persons supplying financial services and constituted under the laws of New Zealand are subject to non-discriminatory limitations on juridical form.[1]

12. For greater certainty, the measures that New Zealand may take in accordance with Article 8A.3 (Prudential Measures), provided they meet the requirements of that Article, include those governing:

If India implements a similar youth mobility program in the future with any country, it will extend the opportunity to participate in such a program to New Zealand's citizens.

3. Reflecting the understandings in paragraphs 1 and 2, New Zealand will implement arrangements to grant annually, according to its laws and procedures, up to 1,000 multiple entry "working holiday visas" for temporary stay for a period of 12 calendar months to Indian citizens who meet the eligibility requirements under New Zealand's legislation who:

    (vii) is between 18 and 30 years of age, both inclusive, at the time of their application;

(xiii) have a tertiary qualification granted in respect of a minimum of 3 years full time study; and

(ii) remain in New Zealand for up to 12 months from the date of first entry;

(iii) leave and re-enter New Zealand as many times as they like during the 12 month stay period;

(iv) undertake paid or unpaid employment for the duration of their stay in New Zealand, but may only be employed for up to 6 months with any one employer; and

5. Amendments to these understandings may be made at any time and notified in writing through diplomatic channels. The date of effect of any such amendment will be stipulated in the diplomatic correspondence.

6. If required, the Parties will meet to review the operation of these understandings. As part of this review, the Parties will consider amendments to allow for a reciprocal "working holiday" arrangement.

7. Either Party may temporarily suspend the Arrangement, in whole or in part, for reasons of public security, public order, public health or
